

Datasheet: TZA072P

Description:	HUMAN ANTI GUSELKUMAB (DRUG/TARGET COMPLEX):HRP
Specificity:	GUSELKUMAB DRUG/TARGET COMPLEX
Other names:	Tremfya
Format:	HRP
Product Type:	Monoclonal Antibody
Clone:	AbD59967
Isotype:	Fab antibody
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Product Form

A bivalent human recombinant Fab (kappa light chain) generated by coupling of the monovalent SpyTagged Fab [TZA072](#) with a HRP conjugated BiSpyCatcher version 2 ([TZC002P](#)). The coupled antibody has two DYKDDDDK tags and three His6-tags. It contains SpyTag3 peptide ([BLP086](#)) in 5-fold molar excess to block any unreacted Catcher sites. This antibody is supplied as a liquid.

Preparation

Metal chelate affinity chromatography

Source

E.coli

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.0095% MIT

Approx. Protein Concentrations

Antibody concentration 0.5 mg/ml

Immunogen	Guselkumab
Specificity	<p>Human anti guselkumab (drug/target complex) Antibody, clone AbD59967 recognizes the antibody drug guselkumab when in complex with its target, the human Interleukin-23 (IL-23). It does not recognize free guselkumab nor unbound IL-23.</p> <p>Clone AbD59967 can be used to develop a pharmacokinetic (PK) antigen capture assay to measure levels of guselkumab captured via immobilized IL-23.</p> <p>TZA072 is a monovalent Fab antibody incorporating a SpyTag at the C-terminus end of the antibody heavy chain for conversion by the end user into alternative formats using any of the SpyCatchers available in our catalog.</p> <p>Clone AbD59967 is also available conjugated to HRP via coupling to the BiSpyCatcher2:HRP (TZC002P) for direct detection of the IL-23/guselkumab complex.</p> <p>Guselkumab (trade name Tremfya) is a fully human monoclonal antibody of the IgG1/lambda isotype binding to the p19 subunit of IL-23 to block its interaction with the IL-23 receptor, subsequently inhibiting the release of pro-inflammatory cytokines and chemokines. Guselkumab is approved for the treatment of moderate to severe plaque psoriasis in adults.</p> <p>View a summary of all anti-guselkumab antibodies</p>
Affinity	The monovalent intrinsic affinity of AbD59967pap was measured as $K_D = 33$ nM by real time, label free molecular interaction analysis on immobilized IL-23A/guselkumab complex.
ELISA	<p>Clone AbD59967pap can be used in direct ELISA to detect the IL-23A/ guselkumab complex in a pharmacokinetic (PK) antigen capture assay.</p> <p>Protocol: PK antigen capture ELISA</p>
Storage	<p>This product is shipped frozen.</p> <p>When ready to use, thaw and aliquot the sample as needed. Store aliquots at -70°C, if available, otherwise store at -20°C. It is not recommended to keep aliquots at 4°C for more than one week.</p>
Guarantee	12 months from date of despatch
Acknowledgements	<p>This product and/or its use is covered by claims of U.S. patents, and/or pending U.S. and non-U.S. patent applications owned by or under license to Bio-Rad Laboratories, Inc. See bio-rad.com/en-us/trademarks for details.</p> <p>His-tag is a registered trademark of EMD Biosciences.</p> <p>Tremfya is a trademark of MorphoSys.</p>
Health And Safety Information	<p>Material Safety Datasheet documentation #20479 available at: https://www.bio-rad-antibodies.com/SDS/TZA072P</p>

Licensed Use	For <i>in vitro</i> research purposes and for commercial applications for the provision of <i>in vitro</i> testing services to support preclinical and clinical drug development. Any re-sale in any form or any other commercial application needs a written agreement with Bio-Rad.
Regulatory	For research purposes only
Technical Advice	Recommended protocols for coupling a Fab antibody with a SpyTag to a SpyCatcher can be found at SpyTag and SpyCatcher Products , and further information about HuCAL recombinant antibody technology can be found in the HuCAL Antibodies Technical Manual
