

Datasheet: TZC013 BATCH NUMBER 169360

Description:	RABBIT IgG-FcSpyCatcher3
Name:	RABBIT IgG-FcSPYCATCHER3
Format:	Catcher
Product Type:	Recombinant Protein
Quantity:	0.5 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunoassay	-			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Product Information	Palhit InC Factor Catabar 2 (rains C Factor C2) contains a Confectabar 2 (Kacabla et al.
Approx. Protein Concentrations	80 μM (6.1 mg/ml)
Preservative Stabilisers	0.0095% MIT
Buffer Solution	Phosphate buffered saline
Source	HKB-11
Preparation	Recombinant protein expressed in mammalian cell line and purified by affinity chromatography
Product Form	FcSpyCatcher3 purified recombinant protein, fused to the hinge region, CH2, and CH3 of rabbit IgG - liquid
Target Species	Protein/peptide tag

Product Information

Rabbit IgG-FcSpyCatcher3 (rblgG-FcSpyC3) contains a SpyCatcher3 (Keeble et al. 2019) fused to the hinge region, CH2 and CH3 of rabbit IgG (Hentrich et al. 2020),

resulting in a 76.1 kDa protein for the disulfide-bridged dimer. Each SpyCatcher3 subunit can form a stable covalent isopeptide bond with a second protein that includes a SpyTag. The reaction occurs spontaneously on mixing, is rapid, irreversible, high-yielding and shows good specificity. The reaction is robust at pH 5 to 8, at temperatures from +4°C to +37°C, in various buffer conditions (Ca2+/Mg2+ not needed) and in the presence of detergents. The reaction also occurs inside cells (*in vivo*). Since the speed of the coupling reaction is concentration dependent, it is recommended to use rblgG-FcCatcher3 undiluted.

Rabbit IgG-FcSpyCatcher3 is compatible with Bio-Rad's recombinant HuCAL antibodies with a SpyTag2 at the C-terminus of the heavy chain.
