

Datasheet: VMA00048

BATCH NUMBER 155538

| Description:         | MOUSE ANTI ACTIN BETA  |  |
|----------------------|------------------------|--|
| Specificity:         | ACTIN BETA             |  |
| Other names:         | ACTB                   |  |
| Format:              | Purified               |  |
| <b>Product Type:</b> | PrecisionAb Monoclonal |  |
| Isotype:             | IgG1                   |  |
| Quantity:            | 100 µl                 |  |

## **Product Details**

### **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

|                  | Yes | No | Not Determined | Suggested Dilution |
|------------------|-----|----|----------------|--------------------|
| Western Blotting | •   |    |                | 1/1000             |

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click <a href="here">here</a> to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

| Target Species              | Human  |
|-----------------------------|--|
| Species Cross<br>Reactivity | Reacts with: Mouse, Rat  N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. |
| Product Form                | Purified IgG - liquid  |
| Preparation                 | Mouse monoclonal antibody purified by affinity chromatography on Protein A from tissue culture supernatant   |
| Buffer Solution             | Phosphate buffered saline  |

| Preservative<br>Stabilisers      | 0.09% Sodium Azide (NaN <sub>3</sub> )   |  |  |
|----------------------------------|--|--|--|
| Immunogen                        | Synthetic peptide corresponding to the acetylated N-terminal nonapeptide of beta-cytoplasmic actin coupled to KLH  |  |  |
| External Database<br>Links       | UniProt: P60709 Related reagents  Entrez Gene: 60 ACTB Related reagents  |  |  |
| Specificity                      | <b>Mouse anti Human actin beta antibody</b> recognizes cytoplasmic actin beta, a 375 amino acid cytoskeletal protein known also as ACTB and beta actin.  |  |  |
|                                  | Actins are highly conserved proteins that are involved in cell motility, structure and integrity and are ubiquitously expressed in all eukaryotic cells. Six different isoforms of actin have been identified in mammals ( <a href="Vandekerckhove et al. 1978">Vandekerckhove et al. 1978</a> ). Mouse anti Human actin beta antibody is highly specific for cytoplasmic actin beta and does not react with other actin isoforms.  Mouse anti Human actin beta antibody recognizes actin beta as a single band of ~42 kDa |  |  |
|                                  | in a wide range of cell line lysates by western blotting under reducing conditions.  |  |  |
| Western Blotting                 | Anti beta actin antibody detects a band of approximately 42 kDa in HeLa cell lysates.  |  |  |
| References                       | 1. Sadewasser,A. <i>et al.</i> (2019) Anti-Niemann Pick C1 Single-Stranded Oligonucleotides with Locked Nucleic Acid Potently Reduce Ebola Virus Infection <i>In Vitro</i> Molecular Therapy - Nucleic Acids. [Epub ahead of print].   |  |  |
| Storage                          | Store undiluted at -20°C, avoiding repeated freeze thaw cycles.  |  |  |
| Guarantee                        | 12 months from date of despatch  |  |  |
