# Datasheet: VMA00071 BATCH NUMBER 260315

Description:	MOUSE ANTI ALBUMIN
Specificity:	ALBUMIN
Format:	Purified
Product Type:	PrecisionAb Monoclonal
Isotype:	lgG1
Quantity:	100 µl

## **Product Details**

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .

Target Species	Human							
Product Form	Purified IgG - li	quid						
Preparation	Mouse monoclonal antibody purified by affinity chromatography on Protein A from tissue culture supernatant							
Buffer Solution	Phosphate buff	ered salin	е					
Preservative Stabilisers	0.09% Sodium Azide (NaN <sub>3</sub> )							
Immunogen	Human albumin							
External Database Links	UniProt: <u>P02768</u>	Related r	eagents

comprising about one-half of the blood serum protein. Albumin is a globular unglycosylated protein which functions primarily as a carrier protein for steroids, fatty acids, and thyroid hormones and plays a role in stabilizing extracellular fluid volume. Albumin is synthesized in the liver as preproalbumin which has an N-termina peptide that is removed before the nascent protein is released from the rough		
for steroids, fatty acids, and thyroid hormones and plays a role in stabilizing extracellular fluid volume. Albumin is synthesized in the liver as preproalbumin which has an N-terminal peptide that is removed before the nascent protein is released from the rough endoplasmic reticulum. The product, proalbumin, is in turn cleaved in the Golgi vesicles to produce the secreted albumin (provided by RefSeq, Jul 2008).Mouse anti Human albumin antibody detects a band of 67 kDa. The antibody has been extensively validated for western blotting using human serum lysates.Western BlottingAnti albumin detects a band of approximately 67 kDa in human serum samples.StorageStore undiluted at -20°C, avoiding repeated freeze thaw cycles.Guarantee12 months from date of despatchAcknowledgementsPrecisionAb is a trademark of Bio-Rad Laboratories.Health And Safety InformationMaterial Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VMA00071 Antibody (10040)	Specificity	Mouse anti Human albumin antibody recognizes albumin, a soluble, monomeric protein comprising about one-half of the blood serum protein.
