

Datasheet: VMA00116KT

Description:	ATP CITRATE LYASE ANTIBODY WITH CONTROL LYSATE
Specificity:	ATP CITRATE LYASE
Format:	Purified
Product Type:	PrecisionAb Monoclonal
lsotype:	lgG1
Quantity:	2 Westerns

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-</u> rad-antibodies.com/protocols.

Target Species	Human				
Species Cross Reactivity	Reacts with: Mouse, Rat N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.				
Product Form	Purified IgG - liquid				
Preparation	20µl Mouse monoclonal ascites	antibody p	prepared I	by affinity chromatogra	phy on Protein G from
Buffer Solution	Phosphate buffered salin	ie			
Preservative Stabilisers	0.09% Sodium Azide (Na	aN ₃)			

Immunogen	Purified recombinant fragment of human ATP Citrate Lysate, amino acids 306-502, expressed in <i>E. coli</i>

Specificity	Mouse anti Human ATP citrate lyase antibody recognizes ATP citrate lyase, also known as ATP citrate synthase, ATP-citrate (pro-S-)-lyase, ATP-citrate synthase and citrate cleavage enzyme.	
	ATP citrate lyase is the primary enzyme responsible for the synthesis of cytosolic acetyl-CoA in many tissues. The enzyme is a tetramer (relative molecular weight approximately 440,000) of apparently identical subunits. It catalyzes the formation of acetyl-CoA and oxaloacetate from citrate and CoA with a concomitant hydrolysis of ATP to ADP and phosphate. The product, acetyl-CoA, serves several important biosynthetic pathways, including lipogenesis and cholesterogenesis. In nervous tissue, ATP citrate-lyase may be involved in the biosynthesis of acetylcholine. Two transcript variants encoding distinct isoforms have been identified for ATP citrate lyase (provided by RefSeq, Jul 2008).	
	Mouse anti Human ATP citrate lyase antibody detects a band of 125 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.	
Western Blotting	Anti ATP Citrate Lyase detects a band of approximately 125 kDa in HeLa cell lysates.	
Instructions For Use	Please refer to the <u>PrecisionAb western blotting protocol</u> . For additional information on secondary antibody dilution and exposure time see product web page.	
Lysate Composition	400µg HeLa lysate lyophilized in RIPA buffer.	
Lysate Reconstitution	 If using DDT reconstitute the lyophilized lysate with 190µl DI H₂O, add 200µl 2x Laemmli Sample Buffer and 10µl 2M DTT. If using BME reconstitute the lyophilized lysate with 180µl DI H₂O, add 200µl 2x Laemmli Sample Buffer and 20µl BME. Heat at 95°C for 5 minutes. For 10 well mini gels load 25µl. For other gel and comb formats please refer to the PrecisionAb western blotting protocol. 	
Storage	Antibody: Store undiluted at -20°C, avoiding repeated freeze thaw cycles.	
	Lysate: Store lyophilized lysate at -20°C. After reconstitution aliquot and store at -20°C for up to 3 months or at -80°C for longer term storage.	
Guarantee	As supplied, 12 months from date of despatch.
