

Datasheet: VMA00245

BATCH NUMBER 151105

Description:	MOUSE ANTI DNA METHYLTRANSFERASE 1
Specificity:	DNA METHYLTRANSFERASE 1
Format:	Purified
Product Type:	PrecisionAb Monoclonal
Clone:	7C11A2
Isotype:	IgG1
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Mouse monoclonal antibody prepared by affinity chromatography on Protein G from ascites
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 0.5 mg/ml
Immunogen	Recombinant protein corresponding to amino acids 1448-1594 of human DNA

methyltransferase 1 expressed in *E. coli*

Synonyms

AIM, CXXC9, DNMT

Specificity

Mouse anti Human DNA methyltransferase 1 antibody recognizes the DNA (cytosine-5)-methyltransferase 1, also known as Dnmt1, CXXC-type zinc finger protein 9, DNA methyltransferase Hsa1, DNA MTase Hsa1 or M.Hsa1 MCMT.

DNA (cytosine-5-)-methyltransferase 1 has a role in the establishment and regulation of tissue-specific patterns of methylated cytosine residues. Aberrant methylation patterns are associated with certain human tumors and developmental abnormalities. Two transcript variants encoding different isoforms have been found for DNMT1 (provided by RefSeq, Aug 2008).

Mouse anti Human DNA methyltransferase 1 antibody detects a band of 180 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.

Western Blotting

Anti DNA methyltransferase 1 detects a band of approximately 205 kDa in Jurkat cell lysates

Storage

Store undiluted at -20°C, avoiding repeated freeze thaw cycles.

Guarantee

12 months from date of despatch

Acknowledgements

PrecisionAb is a trademark of Bio-Rad Laboratories.

Health And Safety Information

Material Safety Datasheet documentation #10040 available at: <https://www.bio-rad-antibodies.com/SDS/VMA00245>
