

Datasheet: VMA00264

Description:	MOUSE ANTI PYRUVATE KINASE PKLR
Specificity:	PYRUVATE KINASE PKLR
Format:	Purified
Product Type:	PrecisionAb Monoclonal
Clone:	OTI1F3
Isotype:	IgG2a
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Mouse monoclonal antibody purified by affinity chromatography from ascites
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃) 1% Bovine Serum Albumin 50% Glycerol
Immunogen	Full length recombinant human pyruvate kinase PKLR (NP_000289) produced in HEK293T cells
External Database	UniProt:

PK1, PKL

Specificity

Mouse anti Human pyruvate kinase PKLR antibody, clone OT1F3 recognizes the pyruvate kinase PKLR, also known as R-type/L-type pyruvate kinase, pyruvate kinase 1, pyruvate kinase PKLR, pyruvate kinase isozyme R/L, pyruvate kinase isozymes L/R, pyruvate kinase isozymes R/L, pyruvate kinase type L, pyruvate kinase, liver and blood cell and red cell/liver pyruvate kinase.

Encoded by PKLR gene, pyruvate kinase PKLR catalyzes the transphosphorylation of phosphoenolpyruvate into pyruvate and ATP, which is the rate-limiting step of glycolysis. Defects in this enzyme, due to gene mutations or genetic variations, are the common cause of chronic hereditary nonspherocytic hemolytic anemia (CNSHA or HNSHA). Multiple transcript variants encoding different isoforms have been found for PKLR (provided by RefSeq, Jul 2008).

Mouse anti Human pyruvate kinase PKLR antibody, clone OT1F3 detects a band of 62 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.

Western Blotting

Anti pyruvate kinase PKLR detects a band of approximately 62 kDa in K562 cell lysates

Storage

Store undiluted at -20°C, avoiding repeated freeze thaw cycles.

Guarantee

12 months from date of despatch

Acknowledgements

PrecisionAb is a trademark of Bio-Rad Laboratories.
