

## Datasheet: VMA00303

<b>Description:</b>	MOUSE ANTI PIN1
<b>Specificity:</b>	PIN1
<b>Format:</b>	Purified
<b>Product Type:</b>	PrecisionAb Monoclonal
<b>Clone:</b>	855CT1.7.5
<b>Isotype:</b>	IgG1
<b>Quantity:</b>	100 µl

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Immunoprecipitation	▪			
Western Blotting	▪			1/1000

**The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range.** Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

<b>Target Species</b>	Human
<b>Species Cross Reactivity</b>	<p>Reacts with: Mouse, Rat</p> <p><b>N.B.</b> Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
<b>Product Form</b>	Purified IgG - liquid
<b>Preparation</b>	Mouse monoclonal antibody prepared by affinity chromatography on Protein G from ascites.
<b>Buffer Solution</b>	Phosphate buffered saline.
<b>Preservative</b>	0.09% Sodium Azide (NaN <sub>3</sub> ).

## Stabilisers

Approx. Protein Concentrations	IgG concentration 0.5 mg/ml.
--------------------------------	------------------------------

Immunogen	Purified His-tagged PIN1 protein
-----------	----------------------------------

## Specificity

**Mouse anti Human PIN1 antibody** recognizes the peptidyl-prolyl cis-trans isomerase NIMA-interacting 1, also known as PPIase Pin1, protein (peptidyl-prolyl cis/trans isomerase) NIMA-interacting 1 and rotamase Pin1.

Peptidyl-prolyl cis/trans isomerases (PPIases) catalyze the cis/trans isomerization of peptidyl-prolyl peptide bonds. Encoded by the PIN1 gene, peptidyl-prolyl cis-trans isomerase NIMA-interacting 1 specifically binds to phosphorylated ser/thr-pro motifs to catalytically regulate the post-phosphorylation conformation of its substrates. The conformational regulation catalyzed by this PPIase has a profound impact on key proteins involved in the regulation of cell growth, genotoxic and other stress responses, the immune response, induction and maintenance of pluripotency, germ cell development, neuronal differentiation, and survival. This enzyme also plays a key role in the pathogenesis of Alzheimer's disease and many cancers. Multiple alternatively spliced transcript variants have been found for PIN1 (provided by RefSeq, Jun 2011).

Mouse anti Human PIN1 antibody detects a band of 18 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.

Western Blotting	Anti PIN1 detects a band of approximately 18 kDa in Jurkat cell lysates.
------------------	--

Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
---------	---

Guarantee	12 months from date of despatch.
-----------	----------------------------------

Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
------------------	---

Health And Safety Information	Material Safety Datasheet documentation #10040 available at: <a href="https://www.bio-rad-antibodies.com/SDS/VMA00303">https://www.bio-rad-antibodies.com/SDS/VMA00303</a> Antibody (10040)
-------------------------------	--

Regulatory	For research purposes only.
