

Datasheet: VMA00307

BATCH NUMBER 151204

Description:	MOUSE ANTI VCP
Specificity:	VCP
Format:	Purified
Product Type:	PrecisionAb Monoclonal
Isotype:	IgG1
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse, Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Mouse monoclonal antibody prepared by affinity chromatography on Protein G from ascites

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.09% Sodium Azide (NaN₃)

Immunogen	Recombinant human VCP
External Database Links	<p>UniProt: P55072 Related reagents</p> <p>Entrez Gene: 7415 VCP Related reagents</p>
Specificity	<p>Mouse anti Human VCP antibody recognizes the valosin-containing protein (VCP), also known as transitional endoplasmic reticulum ATPase, 15S Mg(2+)-ATPase p97 subunit, TER ATPase, epididymis luminal protein 220, epididymis secretory protein Li 70, transitional endoplasmic reticulum ATPase, and yeast Cdc48p homolog.</p> <p>Encoded by VCP gene, valosin-containing protein is a member of a family that includes putative ATP-binding proteins involved in vesicle transport and fusion, 26S proteasome function, and assembly of peroxisomes. This protein, as a structural protein, is associated with clathrin, and heat-shock protein Hsc70, to form a complex. It has been implicated in a number of cellular events that are regulated during mitosis, including homotypic membrane fusion, spindle pole body function, and ubiquitin-dependent protein degradation (provided by RefSeq, Jul 2008)</p> <p>Mouse anti Human VCP antibody detects a band of 89 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
Western Blotting	Anti VCP detects a band of approximately 89 kDa in HEK293 cell lysates
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: Antibody (10040): https://www.bio-rad-antibodies.com/uploads/MSDS/10040.pdf
Regulatory	For research purposes only
