

Datasheet: VMA00311

BATCH NUMBER 151204

Description:	MOUSE ANTI RAPTOR
Specificity:	RAPTOR
Format:	Purified
Product Type:	PrecisionAb Monoclonal
Clone:	1A9
Isotype:	IgG1
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse
N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Mouse monoclonal antibody prepared by affinity chromatography on Protein G from tissue culture supernatant

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Immunogen	Recombinant RAPTOR
External Database Links	<p>UniProt: Q8N122 Related reagents</p> <p>Entrez Gene: 57521 RPTOR Related reagents</p>
Synonyms	KIAA1303, RAPTOR
Specificity	<p>Mouse anti Human RAPTOR antibody recognizes the regulatory-associated protein of mTOR (RAPTOR), also known as p150 target of rapamycin (TOR)-scaffold protein.</p> <p>Encoded by the RPTOR gene, regulatory-associated protein of mTOR is a component of a signaling pathway that regulates cell growth in response to nutrient and insulin levels. RAPTOR forms a stoichiometric complex with the mTOR kinase, and also associates with eukaryotic initiation factor 4E-binding protein-1 and ribosomal protein S6 kinase. The protein positively regulates the downstream effector ribosomal protein S6 kinase, and negatively regulates the mTOR kinase. Multiple transcript variants encoding different isoforms have been found for RPTOR (provided by RefSeq, Sep 2009).</p> <p>Mouse anti Human RAPTOR antibody detects a band of 149 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
Western Blotting	Anti RAPTOR detects a band of approximately 149 kDa in HEK293 cell lysates
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: Antibody (10040): https://www.bio-rad-antibodies.com/uploads/MSDS/10040.pdf
Regulatory	For research purposes only
