

Datasheet: VMA00320

Description:	MOUSE ANTI AXL RECEPTOR TYROSINE KINASE
Specificity:	AXL RECEPTOR TYROSINE KINASE
Format:	Purified
Product Type:	PrecisionAb Monoclonal
Clone:	7E10
Isotype:	lgG1
Quantity:	100 µl

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further								
	information. For genera	information. For general protocol recommendations, please visit <u>www.bio-</u>							
	rad-antibodies.com/protocols.								
		Yes	No	Not Determined	Suggested Dilution				
	Immunoprecipitation	-			1/1000				
	Western Blotting	•			1/1000				
	The PrecisionAb label is reserved for antibodies that meet the defined performance								
	criteria within Bio-Rad's ongoing antibody validation programme. Click <u>here</u> to learn								
	how we validate our P	recisionA	b range.	Where this product has	s not been tested for				
	use in a particular techr	nique this o	loes not r	ecessarily exclude its	use in such procedures.				
	Further optimization ma	ay be requi	red deper	ndent on sample type.					
Target Species	Human								
Product Form	Purified IgG - liquid								
Preparation	Mouse monoclonal antibody prepared by affinity chromatography on Protein G from ascites.								
Buffer Solution	Phosphate buffered sali	ine.							
Preservative Stabilisers	0.09% Sodium Azide (N	laN ₃).							
Approx. Protein Concentrations	IgG concentration 0.5 m	ng/ml.							
Immunogen	Purified recombinant ex with hIgGFc tag expres		•	•	r tyrosine kinase fused

Synonyms	UFO						
Specificity	Mouse anti Human AXL receptor tyrosine kinase antibody recognizes the AXL oncogene, also known as AXL transforming sequence/gene and tyrosine-protein kinase receptor UFO.						
	Encoded by the AXL gene, the AXL oncogene is a member of the Tyro3-AxI-Mer (TAM) receptor tyrosine kinase subfamily. It possesses an extracellular domain which is composed of two immunoglobulin-like motifs at the N-terminal, followed by two fibronectin type-III motifs. It transduces signals from the extracellular matrix into the cytoplasm by binding to the vitamin K-dependent protein growth arrest-specific 6 (Gas6). AXL may be involved in several cellular functions including growth, migration, aggregation and anti-inflammation in multiple cell types. Alternative splicing results in multiple transcript variants of AXL (provided by RefSeq, Jul 2013).						
	Mouse anti Human AXL receptor tyrosine kinase antibody detects a band of 138 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.						
Western Blotting	Anti AXL receptor tyrosine kinase detects a band of approximately 138 kDa in HeLa cell lysates.						
Storage	This product is shipped at ambient temperature. Store undiluted at -20°C, avoiding repeated freeze thaw cycles.						
Guarantee	12 months from date of despatch						
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.						
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VMA00320 Antibody (10040)						
Regulatory	For research purposes only.
