

Datasheet: VMA00321

Description:	MOUSE ANTI CD31
Specificity:	CD31
Format:	Purified
Product Type:	PrecisionAb Monoclonal
Isotype:	IgG1
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Mouse monoclonal antibody prepared by affinity chromatography on Protein G from ascites
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Immunogen	Purified recombinant fragment of human CD31 expressed in <i>E. coli</i>
External Database Links	UniProt: P16284 Related reagents

Entrez Gene:

[5175](#) PECAM1 [Related reagents](#)

Specificity **Mouse anti Human CD31 antibody** recognizes the CD31 antigen, also known as platelet endothelial cell adhesion molecule or PECAM-1.

Encoded by PECAM1 gene, this adhesion molecule is found on the surface of platelets, monocytes, neutrophils, and some types of T-cells, and makes up a large portion of endothelial cell intercellular junctions. CD31 is a member of the immunoglobulin superfamily and is likely involved in leukocyte migration, angiogenesis, and integrin activation (provided by RefSeq, May 2010).

Mouse anti Human CD31 antibody detects a band of 130 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.

Western Blotting Anti CD31 detects a band of approximately 130 kDa in THP-1 cell lysates

Storage Store undiluted at -20°C, avoiding repeated freeze thaw cycles.

Guarantee 12 months from date of despatch
