

Datasheet: VMA00348 BATCH NUMBER 151215

Description:	MOUSE ANTI GPI
Specificity:	GPI
Format:	Purified
Product Type:	PrecisionAb Monoclonal
Clone:	CPTC31
Isotype:	lgG2a
Quantity:	100 μΙ

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	-			1/1000
Immunofluorescence	-			

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click here to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human	
Product Form	Purified IgG - liquid	
Preparation	Mouse monoclonal antibody prepared by affinity chromatogra culture supernatant	phy on Protein G from tissue
Buffer Solution	Phosphate buffered saline	
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)	
Approx. Protein Concentrations	IgG concentration 0.5 mg/ml	

Immunogen	Recombinant human GPI		
External Database Links	UniProt: P06744 Related reagents		
	Entrez Gene: 2821 GPI Related reagents		
Specificity	Mouse anti Human GPI antibody recognizes glucose-6-phosphate isomerase (GPI). GPI is a ubiquitously expressed glycolytic enzyme that catalyzes the conversion of fructose-6-phosphate to glucose-6-phosphate. GPI (or neuroleukin) is also recognized for its neurotrophic effects on spinal and sensory neurons.		
	Mouse anti human GPI antibody detects GPI as a band of 57 kDa in a range of human cell line lysates. The antibody has been extensively validated for western blotting using whole cell lysates.		
Western Blotting	Anti GPI detects a band of approximately 57 kDa in Jurkat cell lysates		
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.		
Guarantee	12 months from date of despatch		
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.		
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VMA00348 Antibody (10040)
