

Datasheet: VMA00387KT

Description:	NKX3-1 ANTIBODY WITH CONTROL LYSATE
Specificity:	NKX3-1
Format:	Purified
Product Type:	PrecisionAb Monoclonal
Clone:	UMAB195
Isotype:	IgG2a
Quantity:	2 Westerns

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

PrecisionAb antibodies have been extensively [validated for the western blot application](#). The antibody has been validated at the suggested dilution. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependant on sample type.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	20µl Mouse monoclonal antibody purified by affinity chromatography from ascites
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃) 1% Bovine Serum Albumin 50% Glycerol
Immunogen	Full length recombinant human NKX3-1 (NP_006158) produced in <i>E.coli</i>
External Database Links	UniProt:

Entrez Gene:

[4824](#) NKX3-1 [Related reagents](#)

Synonyms	NKX3.1, NKX3A
-----------------	---------------

Specificity	<p>Mouse anti Human NKX3-1 antibody recognizes homeobox protein NKX3-1, also known as NK homeobox, family 3, A, NK3 transcription factor homolog A, NK3 transcription factor related, locus 1 and homeobox protein NKX3.1.</p> <p>Encoded by the NKX3-1 gene, this transcription factor functions as a negative regulator of epithelial cell growth in prostate tissue. Aberrant expression of NKX3-1 is associated with prostate tumor progression. Alternate splicing results in multiple transcript variants of NKX3-1 (provided by RefSeq, Jan 2012).</p> <p>Mouse anti NKX3-1 antibody detects a band of 32 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
--------------------	---

Western Blotting	Anti NKX3-1 detects a band of approximately 32 kDa in LNCaP cell lysates
-------------------------	--

Instructions For Use	Please refer to the PrecisionAb western blotting protocol . For additional information on secondary antibody dilution and exposure time see product web page.
-----------------------------	---

Lysate Composition	400µg LNCaP lysate lyophilized in RIPA buffer
---------------------------	---

Lysate Reconstitution	<p>- If using DDT reconstitute the lyophilized lysate with 190µl DI H₂O, add 200µl 2x Laemmli Sample Buffer and 10µl 2M DTT.</p> <p>- If using BME reconstitute the lyophilized lysate with 180µl DI H₂O, add 200µl 2x Laemmli Sample Buffer and 20µl BME.</p> <p>Heat at 95°C for 5 minutes. For 10 well mini gels load 25µl. For other gel and comb formats please refer to the PrecisionAb western blotting protocol.</p>
------------------------------	--

Storage	<p>Antibody: Store undiluted at -20°C, avoiding repeated freeze thaw cycles.</p> <p>Lysate: Store lyophilized lysate at -20°C. After reconstitution aliquot and store at -20°C for up to 3 months or at -80°C for longer term storage.</p>
----------------	--

Guarantee	As supplied, 12 months from date of despatch
------------------	--
