

Datasheet: VMA00440

Description:	MOUSE ANTI FERMT3
Specificity:	FERMT3
Format:	Purified
Product Type:	PrecisionAb Monoclonal
Clone:	OTI2G2
lsotype:	lgG2b
Quantity:	100 µl

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .

Target Species	Human								
Species Cross Reactivity	Reacts with: Mouse N.B. Antibody reactivity reactivity is derived from personal communication further information.	i testing w	ithin our l	aboratories, peer-revie	wed publications or				
Product Form	Purified IgG - liquid								
Preparation	Mouse monoclonal antib	ody purifi	ed by affiı	nity chromatography fro	om ascites				
Buffer Solution	Phosphate buffered sali	ne							
Preservative Stabilisers	0.09% Sodium Azide (N 1% Bovine Serum Albur								

	50% Glycerol					
Immunogen	Recombinant protein fragment corresponding to aa 259-528 of human FERMT3 (NP_113659) produced in <i>E.coli</i>					
External Database Links	UniProt: <u>Q86UX7</u> <u>Related reagents</u>					
	Entrez Gene: <u>83706</u> FERMT3 <u>Related reagents</u>					
Synonyms	KIND3, MIG2B, URP2					
Specificity	Mouse anti Human FERMT3 antibody recognizes FERMT3, also known as MIG2-like protein, UNC-112 related protein 2, fermitin family homolog 3, kindlin 3, KIND3, unc-112-related protein 2 and URP2.					
	Kindlins are a small family of proteins that mediate protein-protein interactions involved in integrin activation and thereby have a role in cell adhesion, migration, differentiation, and proliferation. The protein encoded by the FERMT3 gene has a key role in the regulation of hemostasis and thrombosis. This protein may also help maintain the membrane skeleton of erythrocytes. Mutations in FERMT3 cause the autosomal recessive leukocyte adhesion deficiency syndrome-III (LAD-III). Alternative splicing results in multiple transcript variants encoding distinct isoforms (provided by RefSeq, Jan 2010).					
	Mouse anti Human FERMT3 antibody detects a band of 75 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.					
Western Blotting	Anti FERMT3 detects a band of approximately 75 kDa in RAW 264.7 cell lysates					
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.					
Guarantee	12 months from date of despatch					
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.					
Health And Safety Information	Material Safety Datasheet documentation #10048 available at: Antibody (10048): <u>https://www.bio-rad-antibodies.com/uploads/MSDS/10048.pdf</u>					
Regulatory	For research purposes only
