Datasheet: VMA00444

Description: HUMAN ANTI CYTOKERATIN 18
Specificity: CYTOKERATIN 18
Format: Purified
Product Type: PrecisionAb Monoclonal
Isotype: HuCAL Fab bivalent
Quantity: 100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click here to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species
Human

Product Form
A bivalent human recombinant Fab selected from the HuCAL® phage display library, expressed in E. coli. This Fab fragment is bivalent by dimerization of the bacterial alkaline phosphatase (BAP) fusion protein. The BAP enzymatic activity is silenced by mutation. The antibody is tagged with a DYKDDDDK tag and a HIS-tag (HHHHHH) at the C-terminus of the antibody heavy chain. This antibody is supplied as a liquid.

Preparation
Human recombinant monoclonal antibody purified by StrepTactin affinity chromatography from E. coli extracts

Buffer Solution
Phosphate buffered saline

Preservative Stabilisers
0.09% Sodium Azide (NaN₃)

Immunogen
Cytokeratin 18

**Synonyms**
CYK18

**Specificity**

*Human anti Human cytokeratin 18 antibody* recognizes cytokeratin 18, also known as K18, CK-18, cell proliferation-inducing gene 46 protein, cell proliferation-inducing protein 46, keratin type I cytoskeletal 18 or simply keratin-18.

Encoded by the KRT18 gene, cytokeratin 18 together with its filament partner cytokeratin 8, are perhaps the most commonly found members of the intermediate filament gene family. They are expressed in single layer epithelial tissues of the body. Mutations in KRT18 have been linked to cryptogenic cirrhosis. Two transcript variants encoding the same protein have been found for KRT18 (provided by RefSeq, Jul 2008).

Human anti Human cytokeratin 18 antibody detects a band of 46 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.

**Western Blotting**

Anti cytokeratin 18 detects a band of approximately 46 kDa in MCF7 cell lysates.

**Storage**

Store undiluted at -20°C, avoiding repeated freeze thaw cycles.

**Guarantee**

As supplied, 12 months from date of despatch.

**Acknowledgements**

Sold under license of U.S. Patents 6753136, 7785859 and 8273688 and corresponding patents. This antibody was developed by Bio-Rad, Zeppelinstr. 4, 82178 Puchheim, Germany. PrecisionAb is a trademark of Bio-Rad Laboratories. His-tag is a registered trademark of EMD Biosciences.
