Datasheet: VMA00459KT

Description:	RPS6KA3 ANTIBODY WITH CONTROL LYSATE
Specificity:	RPS6KA3
Format:	Purified
Product Type:	PrecisionAb Monoclonal
Isotype:	IgG1
Quantity:	2 Westerns

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

PrecisionAb antibodies have been extensively validated for the western blot application. The antibody has been validated at the suggested dilution. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependant on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

20µl Mouse monoclonal antibody isolated from ascites by saturated ammonium sulfate precipitation followed by dialysis against PBS

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.09% Sodium Azide (NaN_3)

Immunogen	Purified His-tagged fragment of human RPS6KA3
External Database Links	**UniProt:** P51812 Related reagents **Entrez Gene:** 6197 RPS6KA3 Related reagents
Synonyms	ISPK1, MAPKAPK1B, RSK2
Specificity	**Mouse anti Human RPS6KA3 antibody** recognizes the ribosomal protein S6 kinase alpha-3, also known as MAP kinase-activated protein kinase 1b, insulin-stimulated protein kinase 1, p90-RSK 3 or ribosomal S6 kinase 2. RPS6KA3 encodes a member of the RSK (ribosomal S6 kinase) family of serine/threonine kinases. This kinase contains 2 non-identical kinase catalytic domains and phosphorylates various substrates, including members of the mitogen-activated kinase (MAPK) signalling pathway. The activity of this protein has been implicated in controlling cell growth and differentiation. Mutations in RPS6KA3 gene have been associated with Coffin-Lowry syndrome (CLS) (provided by RefSeq, Jul 2008), additionally mutations in the RPS6KA3 gene have been associated with a non-syndromic mental retardation X-linked-19 (MRX19). Mouse anti Human RPS6KA3 antibody detects a band of 83 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
Western Blotting	Anti RPS6KA3 detects a band of approximately 83 kDa in A431 cell lysate
Instructions For Use	Please refer to the PrecisionAb western blotting protocol. For additional information on secondary antibody dilution and exposure time see product web page.
Lysate Composition	400µg A431 lysate lyophilized in RIPA buffer.
Lysate Reconstitution	- If using DDT reconstitute the lyophilized lysate with 190µl DI H_2O, add 200µl 2x Laemmli Sample Buffer and 10µl 2M DTT. - If using BME reconstitute the lyophilized lysate with 180µl DI H_2O, add 200µl 2x Laemmli Sample Buffer and 20µl BME. Heat at 95°C for 5 minutes. For 10 well mini gels load 25µl. For other gel and comb formats please refer to the PrecisionAb western blotting protocol.
Storage	Antibody: Store undiluted at -20^{o}C, avoiding repeated freeze thaw cycles. Lysate: Store lyophilized lysate at -20°C. After reconstitution aliquot and store at -20°C for up to 3 months or at -80°C for longer term storage.
Guarantee	As supplied, 12 months from date of despatch.
