Datasheet: VMA00479 BATCH NUMBER 160801

Description:	MOUSE ANTI PSD95
Specificity:	PSD95
Format:	Purified
Product Type:	PrecisionAb Monoclonal
lsotype:	lgG2a
Quantity:	100 µl

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-</u>

Target Species	Human							
Species Cross Reactivity	Reacts with: Mouse N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.							
Product Form	Purified IgG - liquid							
Preparation	Mouse monoclonal antibody purified by affinity chromatography on Protein G from tissue culture supernatant							
Buffer Solution	Phosphate buffered sali	ne						
Preservative Stabilisers	0.09% Sodium Azide (N	aN ₃)						

	25% Glycerol					
Immunogen	Fusion protein corresponding to amino acids 77-200 of human PSD95					
External Database Links	UniProt: <u>P78352</u> <u>Related reagents</u> Entrez Gene: <u>1742</u> DLG4 <u>Related reagents</u>					
Synonyms	PSD95					
Specificity	Mouse anti Human PSD95 antibody recognizes PSD95, also known as DLG4, tax interaction protein 15, postsynaptic density protein 95 or synapse-associated protein 90. The DLG4 gene encodes a member of the membrane-associated guanylate kinase (MAGUK) family. It heteromultimerizes with another MAGUK protein, DLG2, and is recruited into NMDA receptor and potassium channel clusters. These two MAGUK proteins may interact at postsynaptic sites to form a multimeric scaffold for the clustering of receptors, ion channels, and associated signaling proteins. Multiple transcript variants encoding different isoforms have been found for DLG4 (provided by RefSeq, Jul 2008). Mouse anti Human PSD95 antibody detects a band of 95 kDa. The antibody has been extensively validated for western blotting using tissue and whole cell lysates.					
Western Blotting	Anti PSD95 detects a band of approximately 95 kDa in mouse brain tissue lysate					
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.					
Guarantee	12 months from date of despatch					
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.					
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: https://www.bio-rad-antibodies.com/SDS/VMA00479 10049					
Regulatory	For research purposes only
