

Datasheet: VMA00483

Description:	MOUSE ANTI HPRT1
Specificity:	HPRT1
Format:	Purified
Product Type:	PrecisionAb Monoclonal
Clone:	5F11A7
Isotype:	IgG1
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Purified IgG prepared by affinity chromatography on Protein G from ascites.

Buffer Solution

Phosphate buffered saline.

Preservative Stabilisers

0.09% Sodium Azide (NaN₃).

Approx. Protein Concentrations	IgG concentration 0.5 mg/ml.
Immunogen	Purified recombinant fragment of human HPRT1 (aa1-218) expressed in <i>E. Coli</i>
External Database Links	<p>UniProt: P00492 Related reagents</p> <p>Entrez Gene: 3251 HPRT1 Related reagents</p>
Synonyms	HPRT
Specificity	<p>Mouse anti Human HPRT1 antibody recognizes HPRT1 also known as hypoxanthine-guanine phosphoribosyltransferase or HGPRTase.</p> <p>The protein encoded by HPRT1 gene is a transferase, which catalyzes conversion of hypoxanthine to inosine monophosphate and guanine to guanosine monophosphate via transfer of the 5-phosphoribosyl group from 5-phosphoribosyl 1-pyrophosphate. This enzyme plays a central role in the generation of purine nucleotides through the purine salvage pathway. Mutations in HPRT1 result in Lesch-Nyhan syndrome (LNS) or gout (provided by RefSeq, Jun 2009).</p> <p>Mouse anti Human HPRT1 antibody detects a band of 24 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
Western Blotting	Anti HPRT1 detects a band of approximately 24 kDa in HeLa cell lysate.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch.
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VMA00483 Antibody (10040)
Regulatory	For research purposes only.
