

Datasheet: VMA00568KT

Description:	RAD18 ANTIBODY WITH CONTROL LYSATE				
Specificity:	RAD18				
Format:	Purified				
Product Type:	PrecisionAb™ Monoclonal				
Clone:	AB02/3C6				
lsotype:	lgG1				
Quantity:	2 Westerns				

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol							
	recommendations, please visit www.bio-rad-antibodies.com/protocols.							
		Yes	No	Not Determined	Suggested Dilution			
	Western Blotting				1/1000			
	PrecisionAb antibodies have been extensively <u>validated for the western blo</u> antibody has been validated at the suggested dilution. Where this product has no use in a particular technique this does not necessarily exclude its use in such pro optimization may be required dependant on sample type.							
Target Species	Human							
Product Form	Purified IgG - liquid							
Preparation	20µl Mouse monoclonal antibody purified by affinity chromatography on Protein G from tissue culture supernatant							
Buffer Solution	Phosphate buffered saline							
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)							
Immunogen	E. coli-derived recombinant human RAD18 (amino acids 1 - 495)							
External Database Links	UniProt: Q9NS91 Related re	agents						
	Entrez Gene:							
		ed reagent	<u>s</u>					
Synonyms	RNF73							

Specificity	Mouse anti Human RAD18 antibody recognizes the E3 ubiquitin-protein ligase RAD18, also known as RAD18 homolog, RING finger protein 73 or postreplication repair protein RAD18.				
	The protein encoded by RAD18 is highly similar to S. cerevisiae DNA damage repair protein Rad18. Yeast Rad18 functions through its interaction with Rad6, which is an ubiquitin-conjugating enzyme required for post-replication repair of damaged DNA. Similar to its yeast counterpart, this protein is able to interact with the human homolog of yeast Rad6 protein through a conserved ring-finger motif. Mutation of this motif results in defective replication of UV-damaged DNA and hypersensitivity to multiple mutagens (provided by RefSeq, Jul 2008).				
	Mouse anti Human RAD18 antibody detects a bands of 80 and 90 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.				
Western Blotting	Anti RAD18 detects bands of approximately 80 and 90 kDa in K562 cell lysates				
Instructions For Use	Please refer to the <u>PrecisionAb western blotting protocol.</u> For additional information on secondary antibody dilution and exposure time see product web page.				
Lysate Composition	400µg K562 lysate lyophilized in RIPA buffer				
Lysate Reconstitution	 If using DDT reconstitute the lyophilized lysate with 190µl DI H₂O, add 200µl 2x Laemmli Sample Buffer and 10µl 2M DTT. If using BME reconstitute the lyophilized lysate with 180µl DI H₂O, add 200µl 2x Laemmli Sample Buffer and 20µl BME. Heat at 95°C for 5 minutes. For 10 well mini gels load 25µl. For other gel and comb formats please refer to the PrecisionAb western blotting protocol. 				
Storage	Antibody: Store undiluted at -20°C, avoiding repeated freeze thaw cycles.				
	Lysate: Store lyophilized lysate at -20°C. After reconstitution aliquot and store at -20°C for up to 3 months or at -80°C for longer term storage.				
Guarantee	As supplied, 12 months from date of despatch.				
Acknowledgements	PrecisionAb [™] is a trademark of Bio-Rad Laboratories.				
Health And Safety Information	Material Safety Datasheet documentation #10040 #10561 available at: Antibody (10040): <u>https://www.bio-rad-antibodies.com/uploads/MSDS/10040.pdf</u> Lysate Material (10561): <u>https://www.bio-rad-antibodies.com/uploads/MSDS/10561.pdf</u>				
Regulatory	For research purposes only
