

Datasheet: VMA00570KT

Description:	HEAT SHOCK 70 kDa PROTEIN 5 ANTIBODY WITH CONTROL LYSATE
Specificity:	HEAT SHOCK 70 kDa PROTEIN 5
Format:	Purified
Product Type:	PrecisionAb™ Monoclonal
Clone:	CD01/1A7
Isotype:	lgG1
Quantity:	2 Westerns

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	-			1/1000

PrecisionAb antibodies have been extensively <u>validated for the western blot application</u>. The antibody has been validated at the suggested dilution. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependant on sample type.

Target Species	Human			
Species Cross Reactivity	Reacts with: Mouse, Rat N.B. Antibody reactivity and working conditions may vary between species.			
Product Form	Purified IgG - liquid			
Preparation	20μl Mouse monoclonal antibody purified by affinity chromatography on Protein G from tissue culture supernatant			
Buffer Solution	Phosphate buffered saline			
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)			
Immunogen	E. coli-derived recombinant human heat shock 70 kDa protein 5 (amino acids 1 - 654)			
External Database Links	UniProt: P11021 Related reagents Entrez Gene:			
	3309 HSPA5 Related reagents			

Synonyms	GRP78
Specificity	Mouse anti Human heat shock 70 kDa protein 5 antibody recognizes heat shock 70 kDa protein 5 also known as GRP78, HSPA5 or 78 kDa glucose-regulated protein.
	Heat shock 70 kDa protein 5 is a member of the heat shock protein 70 (HSP70) family. It is localized in the lumen of the endoplasmic reticulum (ER), and is involved in the folding and assembly of proteins in the ER. As this protein interacts with many ER proteins, it may play a key role in monitoring protein transport through the cell (provided by RefSeq, Sep 2010).
	Mouse anti Human heat shock 70 kDa Protein 5 antibody detects a band of 78 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
Western Blotting	Anti heat shock 70 kDa protein 5 detects a band of approximately 78 kDa in HeLa cell lysates
Instructions For Use	Please refer to the <u>PrecisionAb western blotting protocol.</u> For additional information on secondary antibody dilution and exposure time see product web page.
Lysate Composition	400μg HeLa lysate lyophilized in RIPA buffer
Lysate Reconstitution	 If using DDT reconstitute the lyophilized lysate with 190μl DI H₂O, add 200μl 2x Laemmli Sample Buffer and 10μl 2M DTT. If using BME reconstitute the lyophilized lysate with 180μl DI H₂O, add 200μl 2x Laemmli Sample Buffer and 20μl BME. Heat at 95°C for 5 minutes. For 10 well mini gels load 25μl. For other gel and comb formats please refer to the PrecisionAb western blotting protocol.
Storage	Antibody: Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
	Lysate: Store lyophilized lysate at -20°C. After reconstitution aliquot and store at -20°C for up to 3 months or at -80°C for longer term storage.
Shelf Life	As supplied, 12 months from date of despatch.
Acknowledgements	PrecisionAb™ is a trademark of Bio-Rad Laboratories.
