Datasheet: VMA00573 BATCH NUMBER 100004115

Description:	MOUSE ANTI YY1		
Specificity:	YY1		
Format:	Purified		
Product Type:	PrecisionAb Monoclonal		
Clone:	CD02/2B2		
Isotype:	lgG1		
Quantity:	100 µl		

Product Details

Applications	This product has been reported to work in the following applications. This information						
	derived from testing within our laboratories, peer-reviewed publications or personal						
	communications from the originators. Please refer to references indicated for further						
	information. For general protocol recommendations, please visit <u>www.bio-</u>						
	rad-antibodies.com/protocols.						
	Yes No Not Determined Suggested Dilution						

	res	NO	Not Determined	Suggested Dilution
Immunoprecipitation	-			
Western Blotting	-			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click <u>here</u> to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse, Rat N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.
Product Form	Purified IgG - liquid
Preparation	Mouse monoclonal antibody purified by affinity chromatography on Protein G from tissue culture supernatant
Buffer Solution	Phosphate buffered saline

Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)					
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml					
Immunogen	<i>E. coli</i> -derived recombinant human YY1 (amino acids 1 - 414)					
External Database Links	UniProt: P25490 Related reagents Entrez Gene: 7528 YY1 Related reagents					
Synonyms	INO80S					
Specificity	Mouse anti Human YY1 antibody recognizes the transcriptional repressor protein YY1, also known as INO80 complex subunit S or Yin and Yang 1 protein. The protein YY1 is a ubiquitously-expressed zinc finger transcription factor which can act as an activator or repressor of transcription under different circumstances (Galloway et al. 2017). In addition to transcriptional regulation, YY1 is involved with cell proliferation, chromatin remodeling and apoptosis. Many targets of YY1, for example ERBB2 and p53, are involved with cancer pathogenesis (Kaufhold et al. 2016). Accordingly, YY1 is overexpressed in multiple cancer types, and overexpression is correlated with poor prognosis (Cho and Bonavida 2017). YY1 may be inhibited by siRNA, proteasome inhibitors, and a variety of other factors. Inhibition of YY1 has been suggested as a potential target in cancer (Bonavida 2017).					
Western Blotting	Anti YY1 detects a band of approximately 62 kDa in Jurkat cell lysates					
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.					
Guarantee	12 months from date of despatch					
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.					
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VMA00573 Antibody (10040)					
Regulatory	For research purposes only
