

# Datasheet: VMA00581

| Description:  | MOUSE ANTI CATHEPSIN D |
|---------------|------------------------|
| Specificity:  | CATHEPSIN D            |
| Format:       | Purified               |
| Product Type: | PrecisionAb Monoclonal |
| Isotype:      | lgG1                   |
| Quantity:     | 100 µl                 |

## **Product Details**

| Applications      | This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-</u>   |                          |              |           |                |                    |

| Synonyms                         | CPSD  |  |  |  |  |
| Specificity                      | <b>Mouse anti Human cathepsin D antibody</b> recognizes cathepsin D, also known as CLN10, CPSD, ceroid-lipofuscinosis neuronal 10, epididymis secretory sperm binding protein Li 130P, or lysosomal aspartyl protease.  |  |  |  |  |
|                                  | CTSD gene encodes a lysosomal aspartyl protease composed of a dimer of disulfide-<br>linked heavy and light chains, both produced from a single protein precursor. This<br>proteinase, which is a member of the peptidase C1 family, has a specificity similar to but<br>narrower than that of pepsin A. Transcription of CTSD is initiated from several sites,<br>including one which is a start site for an estrogen-regulated transcript. Mutations in CTSD<br>are involved in the pathogenesis of several diseases, including breast cancer and possibly<br>Alzheimer disease (provided by RefSeq, Jul 2008). |  |  |  |  |
|                                  | Mouse anti Human cathepsin D antibody detects a band of 28 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.  |  |  |  |  |
| Western Blotting                 | Anti cathepsin D detects a band of approximately 28 kDa in MCF7 cell lysates.   |  |  |  |  |
| Storage                          | Store undiluted at -20°C, avoiding repeated freeze thaw cycles.   |  |  |  |  |
| Guarantee                        | 12 months from date of despatch.  |  |  |  |  |
| Acknowledgements                 | PrecisionAb is a trademark of Bio-Rad Laboratories.   |  |  |  |  |
