

# Datasheet: VMA00597KT

Description:	AGR2 ANTIBODY WITH CONTROL LYSATE				
Specificity:	AGR2				
Format:	Purified				
Product Type:	PrecisionAb™ Monoclonal				
Clone:	OTI3B5				
lsotype:	lgG2b				
Quantity:	2 Westerns				

## **Product Details**

from tooting within our lobe				information is derived			
from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol							
recommendations, please visit www.bio-rad-antibodies.com/protocols.							
	Yes	No	Not Determined	Suggested Dilution			
Western Blotting	-			1/1000			
PrecisionAb antibodies have been extensively validated for the western blot application. The							
antibody has been validated at the suggested dilution. Where this product has not been tested for							
use in a particular technique this does not necessarily exclude its use in such procedures. Further							
optimization may be required dependant on sample type.							
Human							
Purified IgG - liquid							
20µl Mouse monoclonal antibody purified by affinity chromatograpy on Protein G from tissue culture supernatant							
Phosphate buffered saline							
0.09% Sodium Azide (NaN <sub>3</sub> )							
1% Bovine Serum Albumin							
<50% Glycerol							
<i>E. coli</i> -derived recombinant human AGR2 (aa 21-17)							
UniProt: 095994 Related rea	agents						
Entrez Gene:							
<u>10551</u> AGR2 <u>Relate</u>	d reagents						
AG2

Specificity	<b>Mouse anti Human AGR2 antibody</b> recognizes anterior gradient protein 2 homolog, also known as AG-2, HPC8, anterior gradient homolog 2, protein disulfide isomerase family A, member 17 and secreted cement gland protein XAG-2 homolog.				
	Mouse anti Human AGR2 antibody detects a band of 18 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.				
Western Blotting	Mouse anti AGR2 antibody detects a band of approximately 18 kDa in MCF7 cell lysates				
Instructions For Use	Please refer to the <u>PrecisionAb western blotting protocol</u> . For additional information on secondary antibody dilution and exposure time see product web page.				
Lysate Composition	400µg MCF7 lysate lyophilized in RIPA buffer				
Lysate Reconstitution	<ul> <li>If using DDT reconstitute the lyophilized lysate with 190µl DI H<sub>2</sub>O, add 200µl 2x Laemmli Sample Buffer and 10µl 2M DTT.</li> <li>If using BME reconstitute the lyophilized lysate with 180µl DI H<sub>2</sub>O, add 200µl 2x Laemmli Sample Buffer and 20µl BME.</li> <li>Heat at 95°C for 5 minutes. For 10 well mini gels load 25µl. For other gel and comb formats please refer to the PrecisionAb western blotting protocol.</li> </ul>				
Storage	Antibody: Store undiluted at -20°C, avoiding repeated freeze thaw cycles.				
	Lysate: Store lyophilized lysate at -20°C. After reconstitution aliquot and store at -20°C for up to 3 months or at -80°C for longer term storage.				
Guarantee	As supplied, 12 months from date of despatch
