

Datasheet: VMA00609

Description:	MOUSE ANTI PI-3 KINASE REGULATORY SUBUNIT 1
Specificity:	PI-3 KINASE REGULATORY SUBUNIT 1
Format:	Purified
Product Type:	PrecisionAb™ Monoclonal
Clone:	D03/2G12-4
Isotype:	IgG2a
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

PrecisionAb antibodies have been extensively [validated for the western blot application](#). The antibody has been validated at the suggested dilution. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependant on sample type.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse, Rat N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Preparation	Mouse monoclonal antibody purified by affinity chromatography on Protein G from tissue culture supernatant
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Immunogen	<i>E. coli</i> -derived recombinant human PI-3 kinase regulatory subunit 1 (aa 429-724)
External Database Links	<p>UniProt: P27986 Related reagents</p> <p>Entrez Gene: 5295 PIK3R1 Related reagents</p>

Synonyms	GRB1
Specificity	<p>Mouse anti Human PI-3 kinase regulatory subunit 1 antibody recognizes PI-3 kinase regulatory subunit 1 (PIK3R1), also known as p85, AGM7, GRB1, IMD36 or phosphatidylinositol 3-kinase regulatory subunit alpha.</p> <p>Phosphatidylinositol 3-kinase phosphorylates the inositol ring of phosphatidylinositol at the 3-prime position. The enzyme comprises a 110 kDa catalytic subunit and a regulatory subunit of either 85, 55 or 50 kDa. This gene encodes the 85 kDa regulatory subunit. Phosphatidylinositol 3-kinase plays an important role in the metabolic actions of insulin, and a mutation in this gene has been associated with insulin resistance. Alternative splicing of this gene results in four transcript variants encoding different isoforms (provided by RefSeq, Jun 2011).</p> <p>Mouse anti Human PI-3 kinase regulatory subunit 1 antibody detects a band of 85 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
Western Blotting	Mouse anti PI-3 kinase regulatory subunit 1 antibody detects a band of approximately 85 kDa in MCF7 cell lysates
Instructions For Use	Please refer to the PrecisionAb western blotting protocol . For additional information on secondary antibody dilution and exposure time see product web page.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles
Guarantee	As supplied, 12 months from date of despatch
Acknowledgements	PrecisionAb™ is a trademark of Bio-Rad Laboratories
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: Antibody (10040): https://www.bio-rad-antibodies.com/uploads/MSDS/10040.pdf
Regulatory	For research purposes only
