

Datasheet: VMA00635

Description:	HUMAN ANTI DDX58
Specificity:	DDX58
Format:	Purified
Product Type:	PrecisionAb Monoclonal
Isotype:	HuCAL Fab bivalent
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Human monoclonal antibody purified by metal chelate affinity chromatography from <i>E. coli</i> extract.
Buffer Solution	Phosphate buffered saline.
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃).
Immunogen	<i>E. coli</i> -derived recombinant human DDX58
External Database Links	UniProt: O95786 Related reagents Entrez Gene:

Specificity	Human anti Human DDX58 antibody recognizes DEAD box protein 58, also known as the probable ATP-dependent RNA helicase DDX58, DEAD/H box polypeptide and RNA helicase RIG-I. DEAD box proteins, characterized by the conserved motif Asp-Glu-Ala-Asp (DEAD), are putative RNA helicases which are implicated in a number of cellular processes involving RNA binding and alteration of RNA secondary structure. DDX58 encodes a protein containing RNA helicase-DEAD box protein motifs and a caspase recruitment domain (CARD). It is involved in viral double-stranded (ds) RNA recognition and the regulation of immune response (provided by RefSeq, Jul 2008). Human anti Human DDX58 antibody detects a band of 102 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
Western Blotting	Human anti DDX58 antibody detects a band of approximately 102 kDa in THP-1 cells stimulated for 16 hrs with lipopolysaccharide (LPS).
Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C. Avoid repeated freezing and thawing as this may denature the protein. Storage in frost-free freezers is not recommended.
Guarantee	12 months from date of despatch.
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories..
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: Antibody (10040): https://www.bio-rad-antibodies.com/uploads/MSDS/10040.pdf
Regulatory	For research purposes only.
