

# Datasheet: VMA00652 BATCH NUMBER 170517

Description:	MOUSE ANTI RPL11	
Specificity:	RPL11	
Format:	Purified	
Product Type:	PrecisionAb Monoclonal	
Clone:	EF01/3G9	
Isotype:	lgG2a	
Quantity:	100 μΙ	

# **Product Details**

#### **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	•			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click <a href="here">here</a> to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Human
Reacts with: Mouse, Rat
<b>N.B.</b> Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.
Purified IgG - liquid
Mouse monoclonal antibody purified by affinity chromatograpy on Protein G from tissue culture supernatant
Phosphate buffered saline

Preservative Stabilisers	0.09% Sodium Azide (NaN <sub>3</sub> )
Immunogen	E. coli-derived recombinant protein human RPL11 (aa 1-178)
External Database Links	UniProt: P62913 Related reagents
	Entrez Gene: 6135 RPL11 Related reagents

# **Specificity**

Mouse anti Human RPL11 antibody recognizes 60S ribosomal protein L11.

Ribosomes, the organelles that catalyze protein synthesis, consist of a small 40S subunit and a large 60S subunit. Together these subunits are composed of 4 RNA species and approximately 80 structurally distinct proteins. RPL11 encodes a ribosomal protein that is a component of the 60S subunit. The protein belongs to the L5P family of ribosomal proteins. It is located in the cytoplasm. The protein probably associates with the 5S rRNA. Alternatively spliced transcript variants encoding different isoforms have been found for RPL11. As is typical for genes encoding ribosomal proteins, there are multiple processed pseudogenes of RPL11 dispersed through the genome (provided by RefSeq, Dec 2010).

Mouse anti Human RPL11 antibody detects a band of 20 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.

Western Blotting	Mouse anti RPL11 antibody detects a band of approximately 20 kDa in HEK293 cell lysates
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles
Guarantee	12 months from date of despatch
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: <a href="https://www.bio-rad-antibodies.com/SDS/VMA00652">https://www.bio-rad-antibodies.com/SDS/VMA00652</a> Antibody (10040)
