

Datasheet: VMA00660

BATCH NUMBER 170508

| | |
|----------------------|------------------------|
| Description: | MOUSE ANTI MUCIN 1 |
| Specificity: | MUCIN 1 |
| Format: | Purified |
| Product Type: | PrecisionAb Monoclonal |
| Clone: | MUC1/520 |
| Isotype: | IgG2a |
| Quantity: | 100 µl |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

| | |
|---------------------------------------|--|
| Target Species | Human |
| Product Form | Purified IgG - liquid |
| Preparation | Mouse monoclonal antibody purified by affinity chromatography on Protein A from tissue culture supernatant |
| Buffer Solution | Phosphate buffered saline |
| Preservative Stabilisers | 0.09% Sodium Azide (NaN ₃) |
| Approx. Protein Concentrations | IgG concentration 0.5 mg/ml |
| Immunogen | Human milk-fat globule membranes (HMFGM) |

| | |
|--------------------------------------|--|
| External Database Links | UniProt: P15941 Related reagents Entrez Gene: 4582 MUC1 Related reagents |
| Synonyms | PUM |
| Specificity | <p>Mouse anti Human mucin 1 antibody recognizes mucin 1, also known as MUC1.</p> <p>MUC1 encodes a membrane-bound protein that is a member of the mucin family. Mucins are O-glycosylated proteins that play an essential role in forming protective mucous barriers on epithelial surfaces. These proteins also play a role in intracellular signaling. This protein is expressed on the apical surface of epithelial cells that line the mucosal surfaces of many different tissues including lung, breast stomach and pancreas. This protein is proteolytically cleaved into alpha and beta subunits that form a heterodimeric complex. The N-terminal alpha subunit functions in cell-adhesion and the C-terminal beta subunit is involved in cell signaling. Overexpression, aberrant intracellular localization, and changes in glycosylation of this protein have been associated with carcinomas. MUC1 is known to contain a highly polymorphic variable number tandem repeats (VNTR) domain. Alternate splicing results in multiple transcript variants (provided by RefSeq, Feb 2011).</p> <p>Mouse anti Human mucin 1 antibody detects a band of 400 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p> |
| Western Blotting | Mouse anti mucin 1 antibody detects a band of approximately 400 kDa in HeLa cell lysates |
| Storage | Store undiluted at -20°C, avoiding repeated freeze thaw cycles |
| Guarantee | 12 months from date of despatch |
| Acknowledgements | PrecisionAb is a trademark of Bio-Rad Laboratories. |
| Health And Safety Information | Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VMA00660 Antibody (10040) |
| Regulatory | For research purposes only |
