

Datasheet: VMA00741KT

Description:	ING2 ANTIBODY WITH CONTROL LYSATE
Specificity:	ING2
Format:	Purified
Product Type:	PrecisionAb™ Monoclonal
Clone:	OTI3B11
Isotype:	IgG1
Quantity:	2 Westerns

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

PrecisionAb antibodies have been extensively [validated for the western blot application](#). The antibody has been validated at the suggested dilution. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependant on sample type.

Target Species	Human
Product Form	Purified IgG - Liquid
Preparation	20µl Mouse monoclonal antibody affinity purified on Protein G from ascites
Buffer Solution	Phosphate buffered saline
Preservative	0.09% Sodium Azide
Stabilisers	1% Bovine Serum Albumin
Immunogen	<i>E. coli</i> -derived full length human recombinant protein of human ING2
External Database Links	<p>UniProt: Q9H160 Related reagents</p> <p>Entrez Gene: 3622 ING2 Related reagents</p>
Synonyms	ING1L
Specificity	Mouse anti Human ING2 antibody recognizes the inhibitor of growth protein 2, also known as

ING1Lp and inhibitor of growth 1-like protein.

ING2 is a member of the inhibitor of growth (ING) family. Members of the ING family associate with and modulate the activity of histone acetyltransferase (HAT) and histone deacetylase (HDAC) complexes and function in DNA repair and apoptosis (provided by RefSeq, Jul 2008).

Mouse anti Human ING2 antibody detects a band of 36 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.

Western Blotting	Mouse anti ING2 detects a band of approximately 36 kDa in HeLa cell lysates
-------------------------	---

Instructions For Use	Please refer to the PrecisionAb western blotting protocol . For additional information on secondary antibody dilution and exposure time see product web page.
-----------------------------	---

Lysate Composition	400µg HeLa lysate lyophilized in RIPA buffer
---------------------------	--

Lysate Reconstitution	- If using DDT reconstitute the lyophilized lysate with 190µl DI H ₂ O, add 200µl 2x Laemmli Sample Buffer and 10µl 2M DTT. - If using BME reconstitute the lyophilized lysate with 180µl DI H ₂ O, add 200µl 2x Laemmli Sample Buffer and 20µl BME. Heat at 95°C for 5 minutes. For 10 well mini gels load 25µl. For other gel and comb formats please refer to the PrecisionAb western blotting protocol.
------------------------------	---

Storage	Antibody: Store undiluted at -20°C, avoiding repeated freeze thaw cycles. Lysate: Store lyophilized lysate at -20°C. After reconstitution aliquot and store at -20°C for up to 3 months or at -80°C for longer term storage.
----------------	---

Guarantee	As supplied, 12 months from date of despatch
------------------	--

Acknowledgements	PrecisionAb™ is a trademark of Bio-Rad Laboratories
-------------------------	---
