

Datasheet: VMA00857

| | |
|----------------------|------------------------|
| Description: | MOUSE ANTI EIF5A |
| Specificity: | EIF5A |
| Format: | Purified |
| Product Type: | PrecisionAb Monoclonal |
| Clone: | AB01/2G8 |
| Isotype: | IgG2b |
| Quantity: | 100 µl |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |
|------------------|-----|----|----------------|--------------------|
| Western Blotting | ▪ | | | 1/1000 |

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse, Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - Liquid

Preparation

Mouse monoclonal antibody affinity purified on Protein G from tissue culture supernatant

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.09% Sodium Azide

| | |
|---------------------------------------|--|
| Approx. Protein Concentrations | IgG concentration 1.0 mg/ml |
| Immunogen | <i>E. coli</i> -derived recombinant protein of amino acids 1-154 of human EIF5A |
| External Database Links | <p>UniProt: P63241 Related reagents</p> <p>Entrez Gene: 1984 EIF5A Related reagents</p> |
| Fusion Partners | Spleen cells from immunised BALB/c mice were fused with cells of the mouse SP2/0 myeloma cell line |
| Specificity | <p>Mouse anti EIF5A antibody recognizes eukaryotic translation initiation factor 5A-1.</p> <p>EIF5A is an abundant, essential translation factor which functions in elongation and termination during protein synthesis (Schuller et al. 2018). EIF5A is involved in the cell cycle, apoptosis, and in viral replication, notably replication of HIV-1 (Mathews and Hershey 2015), and in autophagosome formation, mediating autophagy (Lubas et al. 2018). It is the only eukaryotic protein known to follow a rare but essential post-translational modification called hypusination (Pelechano and Alepuz 2017). EIF5A is a critical regulator of cell growth and development of tumors (Puleston et al. 2019). For example, EIF5A promotes metastasis in pancreatic cancer and mediates chemoresistance (Wang et al. 2019).</p> |
| Western Blotting | Mouse anti EIF5A antibody detects a band of approximately 17 kDa in HEK293 cell lysates |
| Storage | Store undiluted at -20°C, avoiding repeated freeze thaw cycles |
| Guarantee | 12 months from date of despatch |
| Acknowledgements | PrecisionAb is a trademark of Bio-Rad Laboratories |
| Health And Safety Information | Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VMA00857 Antibody (10040) |
| Regulatory | For research purposes only |
