

Datasheet: VMA00956

Description:	MOUSE ANTI AKT3
Specificity:	AKT3
Format:	Purified
Product Type:	PrecisionAb Monoclonal
Clone:	I02/2H9
Isotype:	IgG2a
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	■			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Species Cross Reactivity	<p>Reacts with: Mouse, Rat</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
Product Form	Purified IgG - Liquid
Preparation	Mouse monoclonal antibody affinity purified on Protein G from tissue culture supernatant
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide

Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	<i>E. coli</i> -derived recombinant protein of amino acids 1-479 of human AKT3
External Database Links	<p>UniProt: Q9Y243 Related reagents</p> <p>Entrez Gene: 10000 AKT3 Related reagents</p>
Synonyms	PKBG
Fusion Partners	Spleen cells from immunised BALB/c mice were fused with cells of the mouse SP2/0 myeloma cell line
Specificity	<p>Mouse anti AKT3 antibody recognizes RAC-gamma serine/threonine-protein kinase, also known as PKB gamma. AKT is a serine/threonine kinase which regulates multiple cellular processes. Each of the three AKT isoforms shows a different tissue distribution, with AKT3 predominantly expressed in the brain (DuBois et al. 2019). The AKT isoforms also appear to have distinct functions, with AKT3 playing a critical role in the central nervous system (Xia et al. 2019). Deletion of AKT3 reduces brain size, indicating a role for AKT3 in regulation of central nervous system growth (Miao et al. 2016). Mutations in the gene encoding AKT3 have been associated with a range of developmental disorders of the brain, including megalencephaly (Alcantara et al. 2017). AKT3 overexpression has been identified in melanoma, and a tumor-promoting role for AKT3 has been found in colorectal cancer (Fang et al. 2018).</p>
Western Blotting	Mouse anti AKT3 detects a band of approximately 61 kDa in A172 cell lysates
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles
Guarantee	12 months from date of despatch
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories
Health And Safety Information	<p>Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VMA00956 Antibody (10040)</p>
Regulatory	For research purposes only
