

## Datasheet: VMA00978

<b>Description:</b>	HUMAN ANTI PTEN
<b>Specificity:</b>	PTEN
<b>Format:</b>	Purified
<b>Product Type:</b>	PrecisionAb Monoclonal
<b>Clone:</b>	AbD38831eg
<b>Isotype:</b>	HuCAL Fab bivalent
<b>Quantity:</b>	100 µl

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	■			1/200 - 1/2000

**The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range.** Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

<b>Target Species</b>	Human
<b>Product Form</b>	A bivalent human recombinant Fab (lambda light chain) selected from the HuCAL® phage display library, expressed in E. coli. This Fab fragment is bivalent by dimerization of an inactive variant of the bacterial alkaline phosphatase fusion protein. The antibody is tagged with a DYKDDDDK tag and a HIS-tag (HHHHHH) at the C-terminus of the antibody heavy chain. This product is supplied as a liquid.
<b>Preparation</b>	Prepared by affinity chromatography
<b>Source</b>	E.coli
<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative Stabilisers</b>	0.09% Sodium Azide (NaN <sub>3</sub> )

<b>Approx. Protein Concentrations</b>	IgG concentration 0.5 mg/ml
<b>Immunogen</b>	Protein was generated against the peptide HYRYSDTTDSDP (PTENaa375-388)
<b>External Database Links</b>	<p><b>UniProt:</b>  <a href="#">P60484</a>    <a href="#">Related reagents</a></p> <p><b>Entrez Gene:</b>  <a href="#">5728</a>    PTEN    <a href="#">Related reagents</a></p>
<b>Synonyms</b>	MMAC1, TEP1
<b>Specificity</b>	<p><b>Human anti PTEN antibody</b> is a recombinant Fab antibody fragment in the format Fab-Max-FH and recognizes phosphatidylinositol 3,4,5-trisphosphate 3-phosphatase and dual-specificity protein phosphatase PTEN, also known as phosphatase and tensin homolog (PTEN), MMAC1, and TEP1. The PTEN protein is a phosphatase with activity against protein and phospholipid, and acts as a potent tumor suppressor by antagonizing the PI3K/AKT pathway, whereas overexpression of this pathway drives tumorigenesis (<a href="#">Bermúdez Brito et al. 2015</a>). In this way, PTEN mutations can lead to altered protein synthesis, cell cycle processes, cell growth and DNA repair (<a href="#">Hopkins et al. 2014</a>). Somatic loss-of-function PTEN mutations are therefore common in many human cancers, and PTEN mutations have also been identified in autism spectrum disorder (ASD) (<a href="#">Rodríguez-Escudero et al. 2011</a>). Under normal conditions, PTEN levels are tightly regulated by transcriptional, post-transcriptional and post-translational methods, and small changes in PTEN levels can have dramatic effects on cellular function (<a href="#">Haddadi et al. 2018</a>).</p>
<b>Western Blotting</b>	Human anti PTEN detects a band of approximately 54 kDa in MCF-7 cell lysate
<b>Storage</b>	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
<b>Guarantee</b>	As supplied, 12 months from date of despatch
<b>Acknowledgements</b>	<p>PrecisionAb is a trademark of Bio-Rad Laboratories.</p> <p>This product and/or its use is covered by claims of U.S. patents, and/or pending U.S. and non-U.S. patent applications owned by or under license to Bio-Rad Laboratories, Inc. See <a href="http://bio-rad.com/en-us/trademarks">bio-rad.com/en-us/trademarks</a> for details.</p> <p>His-tag is a registered trademark of EMD Biosciences.</p>
<b>Health And Safety Information</b>	<p>Material Safety Datasheet documentation #10040 available at: <a href="https://www.bio-rad-antibodies.com/SDS/VMA00978">https://www.bio-rad-antibodies.com/SDS/VMA00978</a></p> <p>10040</p>
