Datasheet: VPA00023 BATCH NUMBER 270715

Description:	RABBIT ANTI MCM6
Specificity:	MCM6
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications	This product has been reported to work in the following applications. This information i derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .

Target Species	Human							
Species Cross Reactivity	Reacts with: Mouse, Rat N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.							
Product Form	Purified IgG - liquid							
Preparation	Rabbit polyclonal antibo	ody purified	d by affinit	ty chromatography				
Buffer Solution	TRIS buffered saline							
Preservative Stabilisers	0.09% Sodium Azide (N	laN ₃)

Specificity	Rabbit anti Human MCM6 antibody recognizes human minichromosome maintenance 6 (MCM6), also known as DNA replication licensing factor or p105MCM. MCM6 is a 821 amino acid nuclear component of the MCM complex containing a single <u>MCM</u> domain.				
	MCM6 is involved in the initiation and control of eukaryotic DNA replication. Studies show that MCM4 forms a hexameric protein complex with MCM6 and 7, which has DNA helicase activity, and may act as a DNA unwinding enzyme (Kanter <i>et al.</i> 2008). The phosphorylation of this complex by CDC2 kinase reduces the DNA helicase activity and chromatin binding of the MCM complex (Ishimi <i>et al.</i> 2001). MCM6 has been noted to have elevated expression in Hodgkin's lymphoma (Karimi <i>et al.</i> 2008) and be a predictor of survival in patients with mantle cell lymphoma (Schrader <i>et al.</i> 2005).				
	Rabbit anti Human MCM6 antibody recognizes human MCM6 as a single band of ~105 kDa in multiple human cell line lysates by western blotting under reducing conditions. It also cross reacts with rodent cell lines tested.				
Western Blotting	Anti MCM6 antibody detects a band of approximately 105 kDa in HeLa cell lysates.				
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.				
Guarantee	12 months from date of despatch				
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.				
Health And Safety Information	Material Safety Datasheet documentation #10057 available at: https://www.bio-rad-antibodies.com/SDS/VPA00023 Antibody (10057)				
Regulatory	For research purposes only
