The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](http://www.bio-rad-antibodies.com/protocols) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

**Target Species**

Human

**Product Form**

Purified IgG - liquid

**Preparation**

Goat polyclonal antibody purified by affinity chromatography

**Buffer Solution**

TRIS buffered saline

**Preservative**

0.02% Sodium Azide (NaN₃)

**Stabilisers**

0.5% Bovine Serum Albumin

**Immunogen**

Peptide with sequence EVQLGLGRVYPRPPSC from the N-terminus of the androgen receptor.

**Synonyms**

DHTR, NR3C4

**Specificity**

Goat anti Human androgen receptor antibody recognizes the human androgen receptor (AR), also known as the dihydrotestosterone receptor or nuclear receptor subfamily 3 group C member 4.
AR is a ligand-activated transcription factor that belongs to a large family of nuclear receptor proteins. Unbound AR resides predominately in the cytoplasm as a heteromeric complex with hsp90 and other chaperone proteins. These chaperone proteins maintain AR in a form that is receptive to ligand binding. Upon ligand binding, AR recruits a variety of factors including coactivators and mediator proteins whose enzymatic activities promote chromatin remodeling and transcriptional regulation of target genes leading to cell differentiation, survival, and proliferation.

Mutated AR is strongly implicated in development of prostate adenocarcinoma and metastases development.

Goat anti Human androgen receptor antibody recognizes androgen receptor as a single band of approximately 110 kDa in LNCaP cell lysates by western blotting under reducing conditions.

Western Blotting
Goat anti androgen receptor detects a band of approximately 110 kDa in LNCaP cell lysates.

Storage
Store undiluted at -20°C, avoiding repeated freeze thaw cycles.

Guarantee
As supplied, 12 months from date of despatch.

Acknowledgements
PrecisionAb is a trademark of Bio-Rad Laboratories.
