

Datasheet: VPA00062

Description:	GOAT ANTI DDX5
Specificity:	DDX5 (C-Terminal)
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse, Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Goat polyclonal antibody purified by affinity chromatography.

Buffer Solution

TRIS buffered saline.

Preservative Stabilisers

0.02% Sodium Azide (NaN₃)
0.5% Bovine Serum Albumin

Immunogen

Synthetic peptide sequence C-PMIGYPMPTGYSQ from the C-terminal region of DDX5.

Synonyms G17P1, HELR, HLR1

Specificity **Goat anti Human DDX5 antibody** recognizes DDX5, otherwise known as p68 RNA helicase, a nuclear protein and member of the DEAD box protein family which exhibit RNA-dependent ATPase activity, and play important roles in RNA metabolism/ function, including pre-mRNA splicing, RNA translation, RNA synthesis and the assembly of RNP complexes.

DDX5 interacts with Smad3 and p53 to modulate transcription, and acts as a transcriptional coactivator for estrogen receptor alpha (ERalpha).

Goat anti Human DDX5 antibody detects DDX5 as a band of 69 kDa in a range of human cell lines. Cross reactivity with rodent cell lines is also observed.

Western Blotting Goat anti DDX5 detects a band of approximately 69 kDa in Jurkat cell lysates.

Storage Store undiluted at -20°C, avoiding repeated freeze thaw cycles.

Guarantee 12 months from date of despatch.

Acknowledgements PrecisionAb is a trademark of Bio-Rad Laboratories.
