

Datasheet: VPA00077

BATCH NUMBER 020615

Description:	RABBIT ANTI ANNEXIN V
Specificity:	ANNEXIN V
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunoprecipitation	▪			
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse, Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Rabbit polyclonal antibody purified by affinity chromatography

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.09% Sodium Azide (NaN₃)

Approx. Protein Concentrations	IgG concentration 0.5 mg/ml
Immunogen	Human ANXA5 full-length recombinant protein 6x His tagged.
External Database Links	<p>UniProt: P08758 Related reagents</p> <p>Entrez Gene: 308 ANXA5 Related reagents</p>
Synonyms	ANX5, ENX2, PP4
Specificity	<p>Rabbit anti Human annexin V antibody recognizes human annexin V (ANXA5), a member of the annexin family of membrane binding proteins that share structural properties and biological activities associated with membrane related processes. Annexin V, also known as placental anticoagulant protein 4, has potent anticoagulant properties and is amongst the annexins that have extracellular presence in addition to intracellular localization.</p> <p>The annexin V protein binds with high affinity to membranes bearing phosphatidylserine (PS) and fluorescently labeled annexin V is commonly used as a marker for apoptotic cells <i>in vitro</i> and <i>in vivo</i>.</p> <p>Rabbit anti Human annexin V antibody detects ANXA5 as a single band of 32 kDa in a range of human cell line lysates. Cross reactivity with rodent cell lines is also observed.</p>
Western Blotting	Rabbit anti annexin V detects a band of approximately 32 kDa in HeLa cell lysates.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VPA00077 Antibody (10040)
Regulatory	For research purposes only
