

Datasheet: VPA00079

Description:	RABBIT ANTI ANNEXIN VI
Specificity:	ANNEXIN VI
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	■			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse, Rat N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Preparation	Rabbit polyclonal antibody purified by affinity chromatography
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Immunogen	Human ANXA6 full-length recombinant protein 6x His tagged.
External Database Links	UniProt: P08133 Related reagents Entrez Gene: 309 ANXA6 Related reagents
Synonyms	ANX6

Specificity	Rabbit anti Human annexin VI antibody recognizes human annexin VI (ANXA6), otherwise known as lipocortin VI. Annexin VI is a calcium-dependent phospholipid-binding protein and member of the annexin family which acts as an inhibitor of phospholipase A2. This protein is implicated in endocytosis and in the mediation of endosome aggregation and vesicle fusion in secreting epithelia during exocytosis. Rabbit anti Human annexin VI antibody detects ANXA6 as a band of 68 kDa in human cell line lysates. Cross reactivity with rodent cell lines is also observed.
Western Blotting	Rabbit anti annexin VI detects a band of approximately 68 kDa in Jurkat cell lysates.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: Antibody (10040): https://www.bio-rad-antibodies.com/uploads/MSDS/10040.pdf
Regulatory	For research purposes only
