

Datasheet: VPA00086

Description:	RABBIT ANTI ATG16
Specificity:	ATG16
Other names:	APG16-Like 1
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Rabbit polyclonal antibody purified by affinity chromatography
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Immunogen	Synthetic peptide corresponding to an 18 aa sequence from near the amino terminus of human ATG16.
External Database Links	<p>UniProt: Q676U5 Related reagents</p> <p>Entrez Gene: 55054 ATG16L1 Related reagents</p>
Synonyms	APG16L

Specificity **Rabbit anti Human ATG16 antibody** recognizes human autophagy-related protein 16 (ATG16). ATG16 is a member of the autophagy protein family and forms a complex with the ATG5-ATG12 conjugate. This multimeric protein has been shown to be essential for autophagosome formation in both yeast and mammals and targets the ATG5-ATG12 complex to the autophagic isolation membrane during the formation of the autophagosome. Because mammalian ATG16 has seven WD-repeats in its C-terminal domain, it has been suggested that these may form a platform for further protein-protein interactions.

Rabbit anti Human ATG16 antibody detects autophagy-related protein 16 as a band of approximately 65 kDa in a range of human cell line lysates.

Western Blotting Rabbit anti ATG16 detects a band of approximately 65 kDa in HeLa cell lysates.

Storage Store undiluted at -20°C, avoiding repeated freeze thaw cycles.

Guarantee 12 months from date of despatch
