

Datasheet: VPA00133 BATCH NUMBER 200115

Description: RABBIT ANTI IGFBP-7 Specificity: IGFBP-7 Format: Purified Product Type: PrecisionAb Polyclonal Isotype: Polyclonal IgG Quantity: 100 μl			
Format: Purified Product Type: PrecisionAb Polyclonal Isotype: Polyclonal IgG	Description:	RABBIT ANTI IGFBP-7	
Product Type: PrecisionAb Polyclonal Isotype: Polyclonal IgG	Specificity:	IGFBP-7	
Isotype: Polyclonal IgG	Format:	Purified	
, ,	Product Type:	PrecisionAb Polyclonal	
Quantity: 100 μl	Isotype:	Polyclonal IgG	
	Quantity:	100 µl	

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	-			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click here to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human		
Product Form	Purified IgG - liquid		
Preparation	Rabbit polyclonal antibody purified by affinity chromatography.		
Buffer Solution	Phosphate buffered saline		
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)		
Immunogen	E. coli derived recombinant human IGFBP-7		
External Database Links	UniProt:		
	Q16270 Related reagents		

Entrez Gene:

3490 IGFBP7 Related reagents

Synonyms	MAC25, PSF
Specificity	Rabbit anti Human IGFBP-7 antibody recognizes the insulin-like growth factor-binding protein 7, also known as IBP-7, IGF-binding protein 7, IGFBP-rP1, MAC25 protein, PGI2-stimulating factor, prostacyclin-stimulating factor, tumor-derived adhesion factor or TAF.
	Encoded by IGFBP7, insulin-like growth factor-binding protein 7 is a member of the insulin-like growth factor (IGF)-binding protein (IGFBP) family. IGFBPs bind IGFs with high affinity, and regulate IGF availability in body fluids and tissues and modulate IGF binding to its receptors. This protein binds IGF-I and IGF-II with relatively low affinity, and belongs to a subfamily of low-affinity IGFBPs. It also stimulates prostacyclin production and cell adhesion. Alternatively spliced transcript variants encoding different isoforms have been described for IGFBP7, and one variant has been associated with retinal arterial macroaneurysm (PMID:21835307) (provided by RefSeq, Dec 2011).
	Rabbit anti Human IGFBP-7 antibody detects a band of 29 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
Western Blotting	Anti IGFBP-7 detects a band of approximately 29 kDa in HeLa cell lysates.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VPA00133 Antibody (10040)
