

Datasheet: VPA00174

Description:	RABBIT ANTI mTOR
Specificity:	mTOR
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Rabbit polyclonal antibody purified by affinity chromatography.

Buffer Solution

Phosphate buffered saline.

Preservative Stabilisers

0.09% Sodium Azide (NaN₃)
1% Bovine Serum Albumin

Approx. Protein Concentrations

IgG concentration 0.18 mg/ml.

Immunogen	Synthetic peptide corresponding to amino acids 2440-2457 of human mTOR
External Database Links	<p>UniProt: P42345 Related reagents</p> <p>Entrez Gene: 2475 MTOR Related reagents</p>
Synonyms	FRAP, FRAP1, FRAP2
Specificity	<p>Rabbit anti Human mTOR antibody recognizes the Serine/threonine-protein kinase mTOR, also known as FK506-binding protein 12-rapamycin complex-associated protein 1, FKBP12-rapamycin complex-associated protein, mammalian target of rapamycin, mechanistic target of rapamycin, rapamycin, FKBP12 target 1 and rapamycin target protein 1.</p> <p>mTOR belongs to a family of phosphatidylinositol kinase-related kinases. These kinases mediate cellular responses to stresses such as DNA damage and nutrient deprivation. This protein, encoded by the MTOR (FRAP1) gene, acts as the target for the cell-cycle arrest and immunosuppressive effects of the FKBP12-rapamycin complex. The ANGPTL7 gene is located in an intron of MTOR (provided by RefSeq, Sep 2008).</p> <p>Rabbit anti Human mTOR antibody detects a band of 273 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
Western Blotting	Anti mTOR detects a band of approximately 273 kDa in HeLa cell lysates.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch.
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10041 available at: https://www.bio-rad-antibodies.com/SDS/VPA00174 Antibody (10041)
Regulatory	For research purposes only.
