

Datasheet: VPA00208

Description:	RABBIT ANTI DISABLED HOMOLOG 2
Specificity:	DISABLED HOMOLOG 2
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.
Product Form	Purified IgG - liquid
Preparation	Rabbit polyclonal antibody purified by affinity chromatography.
Buffer Solution	Phosphate buffered saline.
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃).
Approx. Protein Concentrations	IgG concentration 0.5 mg/ml.

Immunogen	KLH conjugated synthetic peptide between 743-770 amino acids from the C-terminal region of human disabled homolog 2
External Database Links	UniProt: P98082 Related reagents Entrez Gene: 1601 DAB2 Related reagents
Synonyms	DOC2
Specificity	<p>Rabbit anti Human disabled homolog 2 antibody recognizes disabled homolog 2, also known as differentially-expressed protein 2 and mitogen-responsive phosphoprotein.</p> <p>Encoded by the DAB2 gene, disabled homolog 2 is a mitogen-responsive phosphoprotein. It is expressed in normal ovarian epithelial cells, but is down-regulated or absent from ovarian carcinoma cell lines, suggesting its role as a tumor suppressor. This protein binds to the SH3 domains of GRB2, an adaptor protein that couples tyrosine kinase receptors to SOS (a guanine nucleotide exchange factor for Ras), via its C-terminal proline-rich sequences, and may thus modulate growth factor/Ras pathways by competing with SOS for binding to GRB2. Alternatively spliced transcript variants encoding different isoforms have been found for DAB2 (provided by RefSeq, Oct 2011).</p> <p>Rabbit anti Human disabled homolog 2 antibody detects a band of 96 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
Western Blotting	Anti disabled homolog 2 detects a band of approximately 96 kDa in HeLa cell lysates.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch.
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VPA00208 Antibody (10040)
Regulatory	For research purposes only.
