Datasheet: VPA00216

Description:	RABBIT ANTI FUSE-BINDING PROTEIN 2
Specificity:	FUSE-BINDING PROTEIN 2
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click here to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse
N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Rabbit polyclonal antibody purified by affinity chromatography.

Buffer Solution

Phosphate buffered saline.

Preservative Stabilisers

0.09% Sodium Azide (NaN_3).

Immunogen

KLH conjugated synthetic peptide between 470-498 amino acids from the Central region of human FUSE-binding protein 2

External Database Links	**UniProt:** Q92945 Related reagents **Entrez Gene:** 8570 KHSRP Related reagents
Synonyms	FUBP2
Specificity	**Rabbit anti Human FUSE-binding protein 2 antibody** recognizes the far upstream element (FUSE)-binding protein 2, also known as KH type-splicing regulatory protein and far upstream element-binding protein 2. Encoded by the KHSRP gene, FUSE-binding protein 2 is a multifunctional RNA-binding protein implicated in a variety of cellular processes, including transcription, alternative pre-mRNA splicing and mRNA localization (Min *et al.*, 1997 (PubMed 9136930); Gherzi *et al.*, 2004 (PubMed 15175153) (supplied by OMIM, Apr 2010). Rabbit anti Human FUSE-binding protein 2 antibody detects a band of 82 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
Western Blotting	Anti FUSE-binding protein 2 detects a band of approximately 82 kDa in Jurkat cell lysates.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch.
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VPA00216 Antibody (10040)
Regulatory	For research purposes only.
