

Datasheet: VPA00255

| Description: | RABBIT ANTI Bcl-6 |
|---------------|------------------------|
| Specificity: | Bcl-6 |
| Format: | Purified |
| Product Type: | PrecisionAb Polyclonal |
| Isotype: | Polyclonal IgG |
| Quantity: | 100 µl |

Product Details

| Applications | This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-</u> rad-antibodies.com/protocols. | | | | | | | |
|-----------------------------|--|--------------------|-------------|--------------------------|--------------------------------|--|--|--|

| Target Species | Human | | | | | | | |
| Species Cross Reactivity | Reacts with: Mouse N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. | | | | | | | |
| Product Form | Purified IgG - liquid | | | | | | | |
| Preparation | Rabbit polyclonal antibo | dy purified | by affinity | y chromatography. | | | | |
| Buffer Solution | Phosphate buffered salir | ne. | | | | | | |
| Preservative Stabilisers | 0.09% Sodium Azide (N | aN ₃). | | | | | | |
| Immunogen | KLH-conjugated synthet | ic peptide | correspor | nding to aa 364-395 of | human Bcl-6 | | | |

|----------------------------------|--|--|--|--|
| Synonyms | BCL5, LAZ3, ZBTB27, ZNF51 | | | |
| Specificity | Rabbit anti Human BcI-6 antibody recognizes BcI-6, also known as B-cell lymphoma 5 protein, B-cell lymphoma 6 protein, B-cell lymphoma 6 protein transcript, cys-his2 zinc finger transcription factor, lymphoma-associated zinc finger gene on chromosome 3, protein LAZ-3, zinc finger and BTB domain-containing protein 27, zinc finger protein 51 and zinc finger transcription factor BCL6S. | | | |
| | The protein encoded by the Bcl-6 gene is a zinc finger transcription factor and contains an N-terminal POZ domain. This protein acts as a sequence-specific repressor of transcription, and has been shown to modulate the transcription of START-dependent IL-4 responses of B cells. This protein can interact with a variety of POZ-containing proteins that function as transcriptional corepressors. Bcl-6 is found to be frequently translocated and hyper-mutated in diffuse large-cell lymphoma (DLCL), and may be involved in the pathogenesis of DLCL. Alternatively spliced transcript variants encoding different protein isoforms have been found for Bcl-6 (provided by RefSeq, Jul 2008). | | | |
| | Rabbit anti Human Bcl-6 protein antibody detects a band of 98 kDa. This antibody has been extensively validated for western blotting using whole cell lysates. | | | |
| Western Blotting | Anti Bcl-6 detects a band of approximately 98 kDa in Ramos cell lysate. | | | |
| Storage | Store undiluted at -20°C, avoiding repeated freeze thaw cycles | | | |
| Guarantee | 12 months from date of despatch. | | | |
| Acknowledgements | PrecisionAb is a trademark of Bio-Rad Laboratories. | | | |
| Health And Safety Information | Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/VPA00255 Antibody (10040) | | | |
| Regulatory | For research purposes only. | | | |
