

Datasheet: VPA00260

BATCH NUMBER 160415

Description:	RABBIT ANTI CREB3L1	
Specificity:	CREB3L1	
Format:	Purified	
Product Type:	PrecisionAb Polyclonal	
Isotype:	Polyclonal IgG	
Quantity:	100 μΙ	

### **Product Details**

#### **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="https://www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	•			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click <a href="here">here</a> to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species	Human	
Product Form	lg fraction - liquid	
Preparation	Rabbit Ig fraction prepared by ammonium sulphate precipitation	
Buffer Solution	Phosphate buffered saline	
Preservative Stabilisers	0.09% Sodium Azide (NaN <sub>3</sub> )	
Immunogen	KLH-conjugated synthetic peptide corresponding to aa 481-509 of human CREB3L1	
External Database Links	UniProt:  Q96BA8 Related reagents	

#### **Entrez Gene:**

90993 CREB3L1 Related reagents

Synonyms	OASIS
Specificity	Rabbit anti Human CREB3L1 antibody recognizes CREB3L1, also known as BBF-2 homolog, cAMP-responsive element-binding protein 3-like protein 1 and old astrocyte specifically-induced substance.
	The protein encoded by the CREB3L1 gene is normally found in the membrane of the endoplasmic reticulum (ER). However, upon stress to the ER, the encoded protein is cleaved and the released cytoplasmic transcription factor domain translocates to the nucleus. There it activates the transcription of target genes by binding to box-B elements (provided by RefSeq, Jun 2013).
	Rabbit anti Human CREB3L1 antibody detects a band of 57 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
Western Blotting	Anti CREB3L1 detects a band of approximately 57 kDa in MOLT-4 cell lysate
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles
Guarantee	12 months from date of despatch
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: <a href="https://www.bio-rad-antibodies.com/SDS/VPA00260">https://www.bio-rad-antibodies.com/SDS/VPA00260</a> Antibody (10040)
