

## Datasheet: VPA00266

<b>Description:</b>	RABBIT ANTI FATTY ACID SYNTHASE
<b>Specificity:</b>	FATTY ACID SYNTHASE
<b>Format:</b>	Purified
<b>Product Type:</b>	PrecisionAb Polyclonal
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	100 µl

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

**The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range.** Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

<b>Target Species</b>	Human
<b>Product Form</b>	Ig fraction - liquid
<b>Preparation</b>	Rabbit Ig fraction prepared by ammonium sulphate precipitation.
<b>Buffer Solution</b>	Phosphate buffered saline.
<b>Preservative Stabilisers</b>	0.09% Sodium Azide (NaN <sub>3</sub> ).
<b>Approx. Protein Concentrations</b>	Ig concentration 0.5 mg/ml.
<b>Immunogen</b>	KLH-conjugated synthetic peptide corresponding to aa 942-973 of human fatty acid synthase
<b>External Database Links</b>	<b>UniProt:</b>

**Synonyms**      FAS

---

**Specificity**      **Rabbit anti Human fatty acid synthase antibody** recognizes fatty acid synthase, also known as FASN, FAS and short chain dehydrogenase/reductase family 27X, member 1.

The enzyme encoded by the fatty acid synthase gene is a multifunctional protein. Its main function is to catalyze the synthesis of palmitate from acetyl-CoA and malonyl-CoA, in the presence of NADPH, into long-chain saturated fatty acids. In some cancer cell lines, this protein has been found to be fused with estrogen receptor-alpha (ER-alpha), in which the N-terminus of FAS is fused in-frame with the C-terminus of ER-alpha (provided by RefSeq, Jul 2008).

Rabbit anti Human fatty acid synthase antibody detects a band of 273 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.

---

**Western Blotting**      Anti fatty acid synthase detects a band of approximately 273 kDa in Raji cell lysates.

---

**Storage**      Store undiluted at -20°C, avoiding repeated freeze thaw cycles.

---

**Guarantee**      12 months from date of despatch.

---

**Acknowledgements**      PrecisionAb is a trademark of Bio-Rad Laboratories.
