Datasheet: VPA00276 BATCH NUMBER 160425

Description:	RABBIT ANTI Hsc70
Specificity:	Hsc70
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .

Target Species	Human							
Species Cross Reactivity	Reacts with: Mouse N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.							
Product Form	lg fraction - liquid							
Preparation	Rabbit Ig fraction prepared by ammonium sulphate precipitation							
Buffer Solution	Phosphate buffered sali	ne						
Preservative Stabilisers	0.09% Sodium Azide (N	aN ₃)

	3312 HSPA8 Related reagents				
Synonyms	HSC70, HSP73, HSPA10				
Specificity	Rabbit anti Human Hsc70 antibody recognizes Hsc70 also known as HSPA8, HSC71,				
	N-myristoyltransferase inhibitor protein 71, constitutive heat shock protein 70, epididymis				
	luminal protein 33, epididymis secretory sperm binding protein Li 72p, heat shock 70kd				
	protein 10, heat shock cognate protein 54 and lipopolysaccharide-associated protein 1.				
	The Hsc70 gene encodes a member of the heat shock protein 70 family, which contains				
	both heat-inducible and constitutively expressed members. This protein belongs to the				
	latter group, which are also referred to as heat-shock cognate proteins. It functions as a				
	chaperone, and binds to nascent polypeptides to facilitate correct folding. It also functions				
	as an ATPase in the disassembly of clathrin-coated vesicles during transport of membrane				
	components through the cell. Alternatively spliced transcript variants encoding different				
	isoforms have been found for Hsc70 (provided by RefSeq, Aug 2011).				
	Rabbit anti Human Hsc70 protein antibody detects a band of 75 kDa. The antibody has				
	been extensively validated for western blotting using whole cell lysates.				
Western Blotting	Anti Hsc70 detects a band of approximately 75 kDa in HEK293 cell lysate				
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles				
Guarantee	12 months from date of despatch				
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.				
Health And Safety	Material Safety Datasheet documentation #10040 available at:				
Information	https://www.bio-rad-antibodies.com/SDS/VPA00276				
	Antibody (10040)				
Regulatory	For research purposes only
