

## Datasheet: VPA00277

<b>Description:</b>	RABBIT ANTI INHIBIN BETA B
<b>Specificity:</b>	INHIBIN BETA B
<b>Format:</b>	Purified
<b>Product Type:</b>	PrecisionAb Polyclonal
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	100 µl

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

**The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range.** Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

<b>Target Species</b>	Human
<b>Product Form</b>	Purified IgG - liquid
<b>Preparation</b>	Rabbit polyclonal antibody purified by affinity chromatography.
<b>Buffer Solution</b>	Phosphate buffered saline.
<b>Preservative Stabilisers</b>	0.09% Sodium Azide (NaN <sub>3</sub> ).
<b>Immunogen</b>	KLH-conjugated synthetic peptide corresponding to aa 369-397 of human inhibin beta B
<b>External Database Links</b>	<p><b>UniProt:</b>  <a href="#">P09529</a>    <a href="#">Related reagents</a></p> <p><b>Entrez Gene:</b>  <a href="#">3625</a>    INHBB    <a href="#">Related reagents</a></p>

**Specificity** **Rabbit anti Human inhibin beta B antibody** recognizes inhibin beta B, also known as INHBB, activin AB beta polypeptide and activin beta-B chain.

The inhibin beta B subunit joins the alpha subunit to form a pituitary FSH secretion inhibitor. Inhibin regulates gonadal stromal cell proliferation negatively and to have tumor-suppressor activity. In addition, serum levels of inhibin reflect the size of granulosa-cell tumors and can therefore be used as a marker for primary as well as recurrent disease. Because expression in gonadal and various extra-gonadal tissues may vary several fold in a tissue-specific fashion, it is proposed that inhibin may be both a growth/differentiation factor and a hormone. Furthermore, the beta B subunit forms a homodimer, activin B, and also joins with the beta A subunit to form a heterodimer, activin AB, both of which stimulate FSH secretion (provided by RefSeq, Jul 2008).

Rabbit anti Human inhibin beta B antibody detects a band of 52 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.

---

**Western Blotting** Anti inhibin beta B detects a band of approximately 52 kDa in human adipose tissue.

---

**Storage** Store undiluted at -20°C, avoiding repeated freeze thaw cycles.

---

**Guarantee** 12 months from date of despatch.

---

**Acknowledgements** PrecisionAb is a trademark of Bio-Rad Laboratories.

---

**Health And Safety Information** Material Safety Datasheet documentation #10040 available at: <https://www.bio-rad-antibodies.com/SDS/VPA00277>  
Antibody (10040)

---

**Regulatory** For research purposes only.
