

## Datasheet: VPA00298

<b>Description:</b>	RABBIT ANTI RNA HELICASE A
<b>Specificity:</b>	RNA HELICASE A
<b>Format:</b>	Purified
<b>Product Type:</b>	PrecisionAb Polyclonal
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	100 µl

### Product Details

#### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

**The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range.** Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

<b>Target Species</b>	Human
<b>Product Form</b>	Purified IgG - liquid
<b>Preparation</b>	Rabbit polyclonal antibody purified by affinity chromatography.
<b>Buffer Solution</b>	Phosphate buffered saline.
<b>Preservative Stabilisers</b>	0.09% Sodium Azide (NaN <sub>3</sub> ).
<b>Immunogen</b>	KLH-conjugated synthetic peptide corresponding to aa 1-30 of human RNA helicase A

<b>Synonyms</b>	DDX9, LKP, NDH2
<b>Specificity</b>	<p><b>Rabbit anti Human RNA helicase A antibody</b> recognizes RNA helicase A, also known as DHX9, DDX9, ATP-dependent RNA helicase A, DEAD/H box polypeptide 9, DEAH box protein 9, leukophysin and nuclear DNA helicase II.</p> <p>The DHX9 gene encodes an enzyme that catalyzes the ATP-dependent unwinding of double-stranded RNA and DNA-RNA complexes. This protein localizes to both the nucleus and the cytoplasm and functions as a transcriptional regulator. This protein may also be involved in the expression and nuclear export of retroviral RNAs. Alternate splicing results in multiple transcript variants. Pseudogenes of RNA Helicase A are found on chromosomes 11 and 13 (provided by RefSeq, Feb 2010).</p> <p>Rabbit anti Human RNA helicase A antibody detects a band of 148 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
<b>Western Blotting</b>	Anti RNA helicase A detects a band of approximately 148 kDa in Jurkat cell lysate.
<b>Storage</b>	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
<b>Guarantee</b>	12 months from date of despatch.
<b>Acknowledgements</b>	PrecisionAb is a trademark of Bio-Rad Laboratories.
<b>Health And Safety Information</b>	Material Safety Datasheet documentation #10040 available at: <a href="https://www.bio-rad-antibodies.com/SDS/VPA00298">https://www.bio-rad-antibodies.com/SDS/VPA00298</a> Antibody (10040)
<b>Regulatory</b>	For research purposes only.
