

Datasheet: VPA00351

Description:	RABBIT ANTI CALRETININ
Specificity:	CALRETININ
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Rabbit polyclonal antibody purified by affinity chromatography.

Buffer Solution

Phosphate buffered saline.

Preservative Stabilisers

0.09% Sodium Azide (NaN₃)
2% Sucrose

Approx. Protein Concentrations

IgG concentration 0.5 mg/ml.

Immunogen	Synthetic peptide corresponding to the N-terminal region of human calretinin.
External Database Links	<p>UniProt: P22676 Related reagents</p> <p>Entrez Gene: 794 CALB2 Related reagents</p>
Synonyms	CAB29
Specificity	<p>Rabbit anti Human calretinin antibody recognizes calretinin, also known as 29 kDa calbindin, calbindin 2 and calbindin D29K.</p> <p>Calretinin is an intracellular calcium-binding protein belonging to the troponin C superfamily. Members of this protein family have six EF-hand domains which bind calcium. This protein plays a role in diverse cellular functions, including message targeting and intracellular calcium buffering. It also functions as a modulator of neuronal excitability, and is a diagnostic marker for some human diseases, including Hirschsprung disease and some cancers. Alternative splicing results in multiple transcript variants (provided by RefSeq, Jun 2010).</p> <p>Rabbit anti Human calretinin antibody detects a band of 31 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.</p>
Western Blotting	Anti calretinin detects a band of approximately 31 kDa in HEK293 cell lysate.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Guarantee	12 months from date of despatch.
Acknowledgements	PrecisionAb is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10045 available at: https://www.bio-rad-antibodies.com/SDS/VPA00351 Antibody (10045)
Regulatory	For research purposes only.
