

Datasheet: VPA00383KT

Description:	SKAP2 ANTIBODY WITH CONTROL LYSATE
Specificity:	SKAP2
Format:	Purified
Product Type:	PrecisionAb Polyclonal
Isotype:	Polyclonal IgG
Quantity:	2 Westerns

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting				1/1000

PrecisionAb antibodies have been extensively <u>validated for the western blot</u> <u>application.</u> The antibody has been validated at the suggested dilution. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependant on sample type.

Target Species	Human	
Product Form	Purified IgG - liquid	
Preparation	20μl Rabbit polyclonal antibody purified by affinity chromatography	
Buffer Solution	Phosphate buffered saline	
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃) 2% Sucrose	
Immunogen	Synthetic peptide corresponding to the central region of Human S	
External Database Links	UniProt:

8935 SKAP2 Related reagents

Synonyms	PRAP, RA70, SAPS, SCAP2, SKAP55R
Specificity	Rabbit anti Human SKAP2 antibody recognizes SKAP2, also known as SCAP2, Fyn-associated phosphoprotein SKAP55 homologue, Pyk2/RAFTK-associated protein, retinoic acid-induced protein 70 and src family associated phosphoprotein 2.
	The protein encoded by the SKAP2 gene belongs to the src family kinases. This protein is similar to the src kinase associated phosphoprotein 1. It is an adaptor protein that is thought to play an essential role in the src signaling pathway in various cells. It inhibits PTK2B/RAFTK activity and regulates alpha-synuclein phosphorylation. Some reports indicate that this protein inhibits actin polymerization through interactions with actin assembly factors, and might negatively regulate the invasiveness of tumors by modulating actin assembly (provided by RefSeq, Jul 2008).
	Rabbit anti Human SKAP2 antibody detects a band of 45 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
Western Blotting	Anti SKAP2 detects a band of approximately 45 kDa in HeLa cell lysate
Instructions For Use	Please refer to the <u>PrecisionAb western blotting protocol.</u> For additional information on secondary antibody dilution and exposure time see product web page.
Lysate Composition	400μg HeLa lysate lyophilized in RIPA buffer
Lysate Reconstitution	- If using DDT reconstitute the lyophilized lysate with 190μl DI H ₂ O, add 200μl 2x Laemml Sample Buffer and 10μl 2M DTT If using BME reconstitute the lyophilized lysate with 180μl DI H ₂ O, add 200μl 2x Laemml Sample Buffer and 20μl BME. Heat at 95°C for 5 minutes. For 10 well mini gels load 25μl. For other gel and comb formats please refer to the PrecisionAb western blotting protocol.
Storage	Antibody: Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
	Lysate: Store lyophilized lysate at -20°C. After reconstitution aliquot and store at -20°C for up to 3 months or at -80°C for longer term storage.
Guarantee	As supplied, 12 months from date of despatch
Acknowledgements	PrecisionAb™ is a trademark of Bio-Rad Laboratories
